THE WEATHER

LOUISIANA: Clear to partly cloudy this afternoon, tonight and Tuesday. Not much change in temperature. Gentle to moderate variable winds on the coast.

VOL. 20.—No. 311

MONROE, LOUISIANA, MONDAY, OCTOBER 17, 1949

PRICE FIVE CENTS

FAIR ENOUGH

By
WESTBROOK PEGLER

NEW YORK, Oct. 17.—A paper called the Wage Earner, published in Detroit by the Association of Catholic Trade Unionists, contains on page one of its October issue a box which I regard as a piece of pietistical cant.

It says: "Not as an enemy to be hated but as a fellow man in need of prayer, does the Wage Earner view Westbrook Pegler, self-styled hater of unions."

"Once a very promising liberal, Mr. Pegler exhibited intervals of brilliance which might have carried over to his socially-conscious days had not some unforeseen event intervened. "Prayer, coupled with patient explanations may once again restore the gifted writer to his normal place in society."

"The Wage Earner requests that all workers set aside October 31 as a 'Prayer For Westbrook Pegler Day' and observe this date thereafter in the earnest hope that Mr. Pegler will rejoin the forces of social justice and economic democracy."

Much obliged, but don't bother. This hypocritical attempt to put me in the wrong without resort to reasonable argument and to get me forgiven a generalized but not particularized and unproven indictment does not deceive me.

The Association of Catholic Trade Unionists no more speaks for the Catholic religion or church or for Catholics as a communion than I do. It is a special group of Catholics advocating and promoting special purposes which they desire to accomplish. I give them credit for sincerity in this effort, but I refuse to give any opponent in the future the unfair advantage of unproved assumptions.

I observe that the caption over the accompanying picture says "Not Hated" and that the words "hated" and "hater" appear in the first sentence. In an item appealing for divine consideration of an opponent who is arbitrarily condemned for error, this peculiar emphasis gives me to suspect an ulterior intention to arouse hatred. We had in our journalistic years ago publishers who printed suggestive art depicting one type of sin which death is the wages of.

To say to the partisan, prejudiced readers of such a publication that Pegler is a "self-styled hater of unions" without stating the strong reasons, based on morals, for his opposition to unions is to throw a sneak punch. Moreover, I have not appealed to hatred in my condemnation of unions as criminal organizations knighting my country toward tyranny and my people toward serfdom.

BABY BORN ON HOP OVER SEA

GI Bride Becomes Mother While Aboard Crowded Plane

SHANNON AIRPORT, Ireland, Oct. 17.—(AP)—A son was born to a GI bride today in a crowded passenger plane over the Atlantic ocean.

While the American Overseas Airlines Constellation raced at full throttle for Ireland, Mrs. Darinka Parker, a former inmate of a Nazi concentration camp, gave birth to a four-pound boy. A doctor among the plane, with 36 passengers aboard, was 400 miles east of Shannon when the baby arrived. The transport made its regular stop here and the mother and child were taken in an ambulance to nearby Ennis Hospital.

In Frankfurt, Master Sergeant James C. Parker had gone to the Rhein-Main airport to meet his wife. A grinning headquarters official met him, instead, and announced: "You're a father, Sergeant."

The 40-year-old father, attached to air force headquarters at Wiesbaden, said he was flooded by the news. He will ask, and probably get, permission to come to Ireland at once. Parker said his wife is a former Yugoslav displaced person. He met her in 1945 on the day she was released from a German prison near Nuremberg. They have been married three years. Sergeant Parker comes from Alderson, W. Va.

HOPE IS EXPRESSED FOR JEAN SPANGLER

LOS ANGELES, Oct. 17.—(AP)—Official hope was expressed today that missing actress Jean Spangler is alive after an inch-wide search of Hugh Griffith park failed to yield one tangible clue in her baffling disappearance.

Some 200 police reservists, 25 of them on horseback, and many with dogs, combed the wooded recreation area from dawn to dusk Sunday. Many volunteers also joined the reservists in the search, spurred by the Oct. 9 discovery there of her ripped handbag. The 27-year-old glamour girl was last seen the night of Oct. 7. Det. Lt. George Bantz, who directed the search, said the hunt's failure made him believe that the girl is alive. He did not elaborate. Mrs. Florence Spangler, mother of the actress, also held the same view. Last week the mother feared that her daughter had been slain.

SIX KILLED AFTER AUTO HITS HORSE

Cates Accuses Army Of Trying To End Marine Combat Power

Says National Defense Is Crippled By Pentagon Policies

WASHINGTON, Oct. 17.—(AP)—Gen. Clifton B. Cates, head of the marine corps, accused the army high command today of trying to wipe out the "combat power of the marine corps."

Cates told the house armed services committee that the combat morale of his fighting force still is high.

But substantial harm has been done to the national defense, he said, by "crippling handicap" inflicted on the marine corps by Pentagon policies.

Severe and telling blows are being struck into the "bone and muscle" of the marines, Cates said. Reductions, he said, are "striking into the heart of our combat forces."

Cates was a witness at the house group's hearings on the rows within the armed forces. The navy is battling against policies which, it contends, build up the air corps at the expense of the navy.

The admirals argue that in high defense councils the army and the air force have joined up to out-vote the navy 2-1.

Cates and Gen. A. A. Vandergift, a former commandant of marines, were called as the last witnesses for the navy. Next the committee will hear the other side of the dispute.

Adm. Louis E. Denfeld, chief of naval operations, told the committee last week that there have been moves to strip the marines of their amphibious warfare. He noted that the

1949 IS SEEN AS BAD POLIO YEAR

Atlanta Surgeon General Believes It To Be Worst In History

ATLANTA, Oct. 17.—(AP)—A prediction that 1949 would be the most devastating year in the recorded history of poliomyelitis was made here today by Surgeon General Leonard A. Scheele of the public health service.

In a speech prepared for delivery before health officers from 48 states and four overseas territories, Dr. Scheele predicted that the total cases of poliomyelitis by the end of the year would be between 40,000 and 45,000, or about half against the 27,680 cases reported in 1948.

The surgeon general told the group, opening a two-day conference at the communicable disease center of the public health service, that there has been a marked upward trend of poliomyelitis since 1945. He added the end isn't in sight and that new knowledge is urgently needed in the fight to control the dread disease.

Calling for extensive field investigations into causes of polio, Dr. Scheele said "We know the virus is present (1) in the throat, (2) in feces, (3) sewerage and (4) certain types of flies. But which of these * * * is important in causing epidemics?"

Turning to malaria, the surgeon general said the disease was such a dying threat that malariologists now refer to "the ghost of malaria." He stated that of 28,000 blood smears sent by doctors over the country to the communicable disease center laboratories here only four of the patients were found to have malaria.

"As recently as 1942," Dr. Scheele said, "there were 58,277 cases of malaria in the southeastern states. By 1948 the reported cases had been reduced to 9,519, relatively few of which were confirmed by blood smears."

He added that the Mississippi state health officer offers a cash reward for every confirmed case of malaria reported by a physician in his state.

INDIA'S PREMIER WORN BY TRAVEL

NEW YORK, Oct. 17.—(AP)—A six-day whirl of greetings, hand-shaking and sightseeing on his goodwill tour of America has India's Prime Minister Jawaharlal Nehru just a bit worn.

Griming tiredly, he told a friend: "No one should have to see America for the first time." This is his first visit.

A busy day awaits him today. He will ride up Broadway to a city hall reception in a motorcade of notables, while hands play and confetti and ticker tape snow down from buildings. Tonight he will receive an honorary degree of doctor of laws at Columbia University, and deliver an address.

BORAH IS MUM ON NOMINATION

U. S. District Judge Appointed To Fifth Circuit Court

NEW ORLEANS, Oct. 17.—(AP)—U. S. District Judge Wayne G. Borah said today he had no comment on his nomination to the U. S. Fifth circuit court of appeals by President Truman.

District Attorney J. Skelly Wright, who was nominated to take Judge Borah's place as judge in the eastern district of Louisiana, was not expected back in town until late today.

Borah has been on the federal district bench for 21 years. He is a 58-year-old Republican, and a native of Baldwin, La.

He was appointed to the bench in 1928, after he had served three years as assistant U. S. district attorney.

The son of Charles Frank Borah and Fannie Thomas Borah, he was admitted to the Louisiana bar in 1915 and began his practice here. Borah was an infantry captain in the first World War.

Judge Borah was educated at Phillips Exeter Academy in New Hampshire, Washington and Lee University, the University of Virginia and Louisiana State. He obtained his law degree at L. S. U.

He is an Episcopalian and a member of the Boston club in New Orleans and the New Orleans Country club.

District Attorney Wright, 38, was in Washington at the time the president sent his name and Borah's to the senate for confirmation.

Wright was appointed to the district attorneyship of eastern Louisiana when District Attorney Herbert Christenberry became U. S. district judge last year.

Wright became well known for his part in the prosecution of the Louisiana scandals.

For a while he was a lieutenant junior grade in the coast guard during the war and served on the sub-chaser U. S. S. Patis. Later he was

PROBE RENEWED BY GRAND JURY

At Least 15 Boys From L. T. I. Are Summoned As Witnesses

The Ouachita parish grand jury reconvened at 9 a. m. Monday to investigate among other cases "irregularities at the Louisiana Training Institute."

Judge David I. Garrett ordered the grand jury into special session late Friday afternoon at the request of Foreman George Pipes. Following a roll call by Judge Garrett the 12 official jurors retired to the grand jury room where their intensive probing got underway immediately.

Some 10 witnesses waited outside the grand jury room to testify in regard to the first case taken up by the jury, which had no connection with the boys reformatory.

At least 15 summonses had been served on L. T. I. boys, training school employees, and former employees, according to the sheriff's department. It is presumed that others will be served during the day as the grand jury proceeds with its thorough probe into the Louisiana Training School.

When the same grand jury reported on October 7, their report sharply criticized conditions at the training school and termed them "generally unsatisfactory."

Meantime an L. T. I. youth identified as James Eames, of Bastrop, is hospitalized at the Conway Memorial Hospital with arm injuries which he

JUSTICE DOUGLAS IS 51 YEARS OLD

YAKIMA, Wash., Oct. 17.—(AP)—U. S. Justice William O. Douglas celebrated his 51st birthday anniversary yesterday—flat on his back.

To top it off, his wife was unable to give him a birthday kiss. Snuffles from a cold prevented her coming any nearer than the open door to his hospital room. Doctors' orders.

The supreme court jurist has been bedfast for two weeks with 14 broken ribs, and a punctured lung, suffered in a Cascade Mountain horseback accident Oct. 2.

Though pleased with his recovery, doctors say Douglas can not be discharged from the hospital for a number of days.

The birthday was a happy one for the justice, however. Close friends dropped in to wish him well and congratulatory telegrams came in from many parts of the country.

CLOSE TO JESUS NOW

Six-year-old Janet Latsha, who doctors say is dying of asthma, is shown at Albuquerque, N. M., after flight from her home in Oklahoma City. The daughter of Mrs. Wilma Latsha (left), she will be cared for by the Catholic Sisters of Charity (background) who would not be identified. On the flight Janet said, "I'm close to Jesus now."—(AP Wirephoto).

Strikes In America Idle Nearly Million

16,000 Workers Walk Out At Nine Aluminum Company Plants

PITTSBURGH, Oct. 17.—(AP)—America's strike idle near the million mark today as 16,000 C. I. O. members struck nine plants of Aluminum Company of America.

The aluminum workers joined 480,000 striking steelworkers and 380,000 striking soft coal miners.

More than 55,000 workers in allied industries have been laid off.

Some steelworkers' members in the fabricating steel industry—which makes everything from hairpins to refrigerators—struck during the week end. Other fabricators' contracts expire from now until mid-December.

There's still no sign of peace in labor's biggest conflict since the end of World War II.

The government is gravely concerned. The walkouts threaten to knock post-war economy into a cocked hat.

Secretary of Commerce Sawyer said yesterday the steel strike will idle five million persons if it runs to December 1.

So far, President Truman has kept on the sidelines. His mediators are pushing away at the problem—but with little success.

The mediators tried to head off the steel strike three times. Now they're trying to get industry leaders and Steelworker President Philip Murray back to the bargaining table.

"It's in the lap of the gods," Murray said yesterday as he discussed possible strike settlement in a talk at Bethlehem, Pa.

Pensions are the big issue in the

Anxious, Weeping Czechs Hunt Relatives At Jails

By Nate Polowetzky
PRAGUE, Czechoslovakia, Oct. 17.—(AP)—"She's not here. Try Pankrac prison."

The dejected couple stepped out of the queue at the police station and continued the hunt for their daughter—just one of the thousands arrested in the last two weeks by Communist government police.

The scene was repeated hundreds of times yesterday as anxious and weeping Czechs searched for relatives and down reportedly aimed at liquidating the middle class and nationalizing small business.

In this case, the missing girl's parents took their food package and went on the Pankrac prison, Prague's biggest prison overlooking the city. Even before they got into the taxi the driver knew where they wanted to go. Czechs carrying food packages these days are taking them to imprisoned friends.

"I've taken hundreds of persons out to Pankrac this week," the caddy

TUCKER TRIAL IN NEW START

Case Under Way Again After First Effort Declared Mistrial

CHICAGO, Oct. 17.—(AP)—The government made a fresh start today in the multi-million dollar mail fraud case of Preston Tucker and seven co-defendants.

The first attempt to try the present courtroom reference to the Tucker Corporation ended in a mistrial Oct. 11 after a week's run.

Testimony by the government's fourth witness resulted in the mistrial ruling by Federal Judge Walter LaBuy. He ruled that testimony that one of the defendants had a criminal record was cause for a mistrial.

A venire of 125 was summoned for examination by the prosecution and defense attorneys. However, selection of a jury was expected to be delayed until Judge LaBuy rules on petitions asking separate trials for the defendants.

In asking separate trials, defense attorneys said that publicity given the courtroom reference to the Tucker Corporation ended in a mistrial Oct. 11 after a week's run.

CANTON SLIPS INTO RED ORBIT

Some Quarters Predict Twin Drive To Knock Out Nationalists

By Spencer Moosa
CHUNGKING, Oct. 17.—(AP)—Canton slipped quietly into the widening orbit of Red China today, and Nationalists asked "where next?"

Some quarters predicted twin Communist drives to knock out the government once and for all—one against Chungking, the new Nationalist capital; the other against Kungming nearly 400 miles southwest.

The Reds already threatened several minor Nationalist positions along the east coast. Official reports said the Communists in a big amphibious operation established a beachhead on the northern corner of Amoy Island, about 300 miles northeast of Canton. About 1,200 others landed at Kulangsu, between Amoy and the mainland.

(The British steamer Anhui, carrying 1,400 passengers, was caught in the crossfire of an Army artillery duel yesterday. It returned to Hong Kong with three Chinese dead and 24 wounded.)

The government source said only a small number got ashore at Amoy and were being wiped out. Similarly, at Kulangsu, 200 were taken prisoner and the remainder "annihilated."

Three United States representatives arrived here today—first foreign diplomats to reach Chungking since its reestablishment Saturday as the capital. A chartered plane brought United States Charge D'Affaires Robert Strong; Second Secretary Robert Rin-

DROP IN FARM PRICES HINTED

Senators Voice Belief House Members Encouraging Sag

WASHINGTON, Oct. 17.—(AP)—Two senators suggested today that house members may be handling farm legislation so as to allow a sag in farm prices early next year.

The senators, Democrat Elmer Thomas of Oklahoma and Republican Young of North Dakota, are members of a senate-house conference committee which has had a hectic time trying to patch up differences on a new farm measure. Lack of agreement is one of the things holding up adjournment of congress.

Thomas and Young reasoned that house members of the committee might go through with a let-supports-sag plan in order to force senators to go along with a higher-level price support program later in 1950.

There was no comment from the house members. Representative Pace (D-Ga.) limited himself to saying: "I do not regard the situation as hopeless, since the Aiken act in some cases would permit lower levels than are now in effect."

If these 14—members of the conference committee—do not get together and no bill is passed, then the Aiken act of the 80th congress will go into effect in January. This eventually was the basis for the senators' talk of a possible deliberate drop in the supports, since the Aiken act is assured of top level supports at 90 per cent of parity if growers continue to approve marketing restrictions as they have in the past.

Parity is a computed price intended to give a farm product the same relative purchasing power it had in a past favorable period.

The house bill would continue for another year the existing support levels of 90 per cent of parity, installed during the war to stimulate farm production.

The senate bill would continue supports for most of the basic crops at

FIVE ARE INJURED AS BOAT EXPLODES

NEW ORLEANS, Oct. 17.—(AP)—A 40-foot pleasure boat exploded at its dock in Chef Menteur yesterday, injuring five persons, none seriously.

Injured were P. F. J. Kellett, 33, owner of the cruiser; Mrs. Hugeline Kellett, 34, Sidel; Benjamin Kellett, 32, Mrs. Tommes Hauge, and August Durning.

They were treated at Charity Hospital for burns and lacerations. Police said the blast apparently was caused by an accumulation of gasoline fumes in the bilge.

August Kellett, 33, who was aboard the boat, and Tones Hauge, who was standing on the dock, were not injured. Kellett told police the explosion occurred when he stepped on the engine starter.

Two Cars Crash Into Each Other

Only Survivor Of Accident Near Sicily Island Is Nurse From Winnsboro; L. S. U. Engineer Professor Among Victims

FERRIDAY, La., Oct. 17.—(Special)—Six persons were killed and another seriously injured when an automobile crashed into a horse, skidded across the highway and collided with an on-coming vehicle shortly before 7 p. m. Sunday seven miles south of Sicily Island.

Among those instantly killed in the fatal accident was a Louisiana State University professor, his wife and their two young sons.

The Baton Rouge professor was identified as Cecil Sydney Camp, 42, of 825 Ritter drive, head of the hydraulics engineering department at L. S. U.

Other victims were: Mrs. Anita Pettit Camp, 42, his wife, and their two children, Robert 10 and Arthur 9.

Francis Mitchell, of Fayetteville, Ark., an engineering student at L. S. U.

Leo Frank Jackson of Rayville. The only survivor of the accident, Miss Mable Fussell, a Winnsboro nurse, is hospitalized in a Ferriday clinic with serious injuries.

Witnesses said the cars struck with such terrific impact that they had to be pulled apart to remove the victims.

The accident occurred when a 1949 Ford believed to have been driven by Jackson struck a horse. The on-coming Camp automobile applied its brakes, causing the car to skid to the other side of the highway, resulting in the Jackson vehicle plowing through the Studebaker.

Dr. R. U. Farnham of Harrisonburg, one of the first witnesses to arrive at the scene of the accident stated that four occupants of the camp automobile were instantly killed.

The doctor stated that there is no stock law between Peck, La., and Ferriday where the accident occurred.

Mitchell, a passenger in the Camp car, died within 15 minutes after he was admitted to the Natchez General Hospital. Doctors said Mitchell died as the result of multiple injuries including a fractured skull, face lacerations.

(Continued on Third Page)

CLUES LEAD TO TWO BURGLARS

Too Many Drinks Traps One And Steel Heel Tap Another

Several drinks too many and a steel heel tap have proved the downfall of two post office burglars, Postal Inspector F. L. Clamplitt of Monroe said Monday morning.

Clamplitt said the two objects led to the arrest and confession of two separate burglars of separate post offices in northeast Louisiana.

The extra load of whiskey caused the arrest of John Taylor Queens, 24, alias Bobby Russell, in Lancaster, S. C., for the theft of a pouch of mail from the Holly Ridge post office on September 24.

Picked up Sept. 29 on a drunken charge by a South Carolina state trooper, Queens muttered "something about a post office robbery." A postal inspector was called in. Clamplitt said, and shortly afterward Queens was identified as Russell, a cotton picker who had fled Richland parish on the night of the theft.

Clamplitt said the steel shoe adornment brought about the arrest of 18-year-old Percy Williams, East Carroll Negro, for an uninvited entry into the Soudheimer post office on October 12. The burglar entered the Soudheimer building through a window, stepped onto an ink blotter on a desk, leaving a clear imprint of a steel shoe tap, Clamplitt explained.

A roundup of Negroes with burglar records cornered Williams, already a two-time loser in Tallulah and Lake Providence courts. Officers tied in the theft of \$40 in 25 cent pieces in the east Soudheimer general store on October 11, found that Williams had spent \$35 in quarters for clothing on the day of the post office burglary. Admitting the first theft, Williams then broke down on the post office

THREE KILLED IN TRUCK, AUTO CRASH

BROWNSVILLE, Texas, Oct. 17.—(AP)—A truck and an automobile collided head-on at a curve near here yesterday and three persons died.

The truck burst into flames after the crash and its two occupants were burned beyond recognition. After hours of checking, state highway patrolmen identified them today as Herman Hanson, 23, of Chandler, Texas, and Charles Pense, 48, of Tyler, Texas.

The driver of the car, killed in the crash, was identified as E. R. Sanford, 73, of Commo, Miss.

Members of the Brownsville fire department, who put out the blaze, said Hanson and Pense were trapped in the truck's cab. The vehicle was carrying a load of seed catalogs for a Tyler firm.

DORMITORIES TO HONOR 3 WOMEN

Former Orleansians To Have Names Perpetuated At Southwestern

LAFAYETTE, La., Oct. 17.—(Special)—Three new dormitories for women at Southwestern Louisiana Institute will be named in honor of three former residents of New Orleans who, in the early days of the college, endeared themselves to many thousands of students and residents of southwest Louisiana.

They are Beverly Randolph (the late Mrs. Edwin Lewis Stephens), "Lady" Baker (Mrs. Elizabeth Foulkes Baker) and Emily Hamilton Huger.

Beverly Randolph Hall will honor Southwestern's first art teacher and wife of the college's first and long-time president, Dr. Stephens. Lady Baker Hall will perpetuate the memory of the school's first matron, or housemother, Emily Huger Hall who was dedicated to another early art teacher who rendered outstanding service to the college for 24 years and to the nation during the first World War.

The three new dormitories, being constructed at a cost of \$750,000, will be occupied in the spring semester and will accommodate 300 women students. Included in the project is a social room for women students who commute to classes from neighboring towns.

Beverly Randolph was graduated from the Newcomb art school and in 1901 became a member of the first faculty at Southwestern. After her first year at the college she married Dr. Edwin Lewis Stephens, who served as president of the institute for 38 years. Throughout that time Mrs. Stephens lived on the campus and spent much of her time and talent in laying the groundwork for what is now one of the most beautiful college campuses in the south.

Lady Baker Hall will perpetuate the

memory of Southwestern's first matron, or housemother, and the courtesy title given her by Dr. Stephens. Mrs. Baker was a native of Natchez, Miss., but she came to Southwestern from New Orleans. Because she made a regal impression, was always well-dressed, and displayed a pungent wit, good humor and charming frankness of manner, she was dubbed "Lady" Baker by Dr. Stephens.

When Mrs. Baker arrived on the campus Foster Hall was the only dormitory and here she was manager, supervisor, hostess and godmother to women students and even to some faculty members who lived there during the first years of the college.

In 1904 Foster Hall was occupied by men students and Mrs. Baker and her charges moved to the St. Charles dormitory, a frame structure, while DeClout Hall was being built. She was housemother in DeClout for several years and later returned to St. Charles as infirmarian. She expired in 1922 while holding that position.

Miss Huger was a native of New Orleans and also a graduate of the Newcomb art school. She came first to Southwestern in 1901, but returned to New Orleans to be near her mother, who was ill.

After joining the faculty as a permanent member, Miss Huger became head of the art department and remained in that capacity for 24 years. She did advanced work in New York and Chicago under special art teachers and studied at Harvard, the University of Wisconsin, in Paris and in various other European art centers.

The energetic teacher traveled extensively and her wide range of interests was broadened during the first World War when she volunteered for government service and rose from private to become chief of reconstruction aides in the surgeon general's medical department.

Her hospitality was extended to students so generously that it was said she had "open house" at all times and her coffee pot was never empty.

Public Forum

(NOTE: Communications on any subject are welcome. Letters should be under 200 words and typewritten if possible. All letters are subject to editing to meet space requirements. Each letter must be signed, although signature will be withheld on request. Views and opinions are those of the writer and not necessarily those of this newspaper.)

To the Citizens of Monroe and West Monroe:

For many years the Junior Charity League has enjoyed a highly regarded reputation as a charitable organization made up of non-paid workers who at the present time are giving a minimum of 5,625 working hours annually aiding the underprivileged children of this vicinity.

Our funds are derived from you, a most charitable public, and with your donations we have carried on direct aid to these children to the extent of \$4,000.00 yearly. Requests for this aid are so constant that we feel our organization is an important part of this community and should the league be forced to curtail its activities because of lack of funds many needy children would suffer. We enjoy our work and give our time for the sake of giving.

This year, like many other organizations of similar nature, we received permission from the proper authorities to give away a car in order to derive funds to continue our work. We have been told we could continue this project but since, through the newspaper, we have realized that this type of project is in disfavor with you, the public, we would like to take this means of offering our apologies for having inconvenienced you. However, due to the fact that we have been encouraged publicly to finish what we started in good faith we ask your cooperation and good will in helping us see this through as it is the money derived from this project which will keep our work going through 1950. The car will be given away at Brown Stadium, October 21, at the half of the O. P. H. S. homecoming game.

We would like to take this means of thanking everyone who has helped us in any way. It is our wish to always be deserving of your high regard and respect now and in the future.

Yours truly,
Member of the Junior Charity League
MRS. J. L. ADAMS, JR.
President.
MRS. R. MORGAN SIMONTON
Finance Chairman.

Building Permits

Permission was granted Jesse Bose to move a building at 223 Marx street, at a cost of \$112. J. Peyton Parker will be the contractor.

J. M. Edwards received permits to erect four dwellings at 1603, 1605 and 1607 South First street, at a total cost of \$14,850. The owner will be the contractor.

A permit was granted W. G. Crenshaw to build a dwelling at 120 Egan street, at a cost of \$4,000. The owner will be the contractor.

LEADS MEETING

REV. E. F. BROWN

CHURCH OF GOD TO HAVE REVIVAL

A revival meeting will start Monday (today) at the Church of God, 1401 Cypress street, West Monroe and will continue through October 30 with services at 7:30 p. m. nightly.

Rev. E. F. Brown will be the evangelist. He is president of the Arkansas Ministerial Assembly of the Church of God and also is president of the Anderson College Alumni in Arkansas.

The pastor, Rev. J. C. Grubbs, invites the public to attend all services.

All metals are crystalline, as are also building materials such as brick and even clay.

VETERANS WARNED ON ELIGIBILITY

WASHINGTON, Oct. 17.—(AP)—The veterans administration issued a warning today to World War II veterans planning to go to school under the GI bill with a certificate of eligibility issued before Nov. 1, 1949.

It advised such students to "make sure the school is permitted by law to offer training to veterans at government expense."

The law prohibits payment of veterans benefits unless the school involved has been in operation "on its own" for at least a year, and unless it has been approved by an appropriate state agency.

Veterans may check the status of a school through a veterans administration office.

Those who apply for certificates after Nov. 1 need not check the status, however. All certificates issued after that date will specify the course and school and will be good only for the choice specified.

POSTMASTERS NAMED

WASHINGTON, Oct. 17.—(AP)—President Truman has sent to the senate these postmaster nominations for Louisiana: Carlos J. Turner, Dry Prong, succeeding B. N. Eubanks, transferred. Lucie D. Wattersdorfer, Lettsworth, succeeding I. E. Mounger, retired.

Now Many Wear FALSE TEETH With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug store. (Adv.)

RENT CONTROLS OFF IN LINCOLN

Parish, Outside Of City Of Ruston, No Longer Affected

RUSTON, La., Oct. 17.—(Special)—Rent controls in Lincoln parish with the exception of the city of Ruston, have been removed by the recent action of the housing expediter, Tighe E. Woods, according to a statement from the local rent advisory board made recently.

A letter to the local group states that recent surveys made in the area by the Ruston rent advisory board show that the demand for rental housing has been reasonably met in Lincoln parish except for the city of Ruston. Woods states that he is therefore acting to decontrol all of the parish except the city of Ruston and

amendments are being issued to effect this decontrol.

Members of the local board include G. E. Faulk, Jr., chairman; Howard Smith, T. E. Raley, Amos Ford and George Nicol. This group will continue to act on the board and will expedite communications regarding

any rental housing problems which may arise in this area.

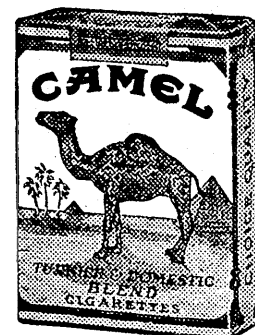

Woods explained that the policy of decontrol in the housing rent act of 1949 in the effect that unnecessary and unduly prolonged controls of rents are inconsistent with the return of peace-time economy. He further

stated that rent controls will be removed whenever it has been determined that the demand for rental housing has been reasonably met.

Surveys are made in the field and forwarded to the housing expediter's office to provide basis for such termination.

Throat Specialists report on 30-Day Test of CAMEL smokers...

NOT ONE SINGLE CASE OF THROAT IRRITATION DUE TO SMOKING CAMELS!

These were the findings of noted throat specialists in a coast-to-coast test of hundreds of men and women who smoked Camels, and only Camels, for 30 consecutive days. The throats of all smokers in the test were examined every week—a total of 2,470 careful examinations.

New York housewife gives her report:

OIL PROGRESS WEEK • OCTOBER 16 - 22

This Week...
take a look at the industry behind the service station where you buy gasoline

As an average American, you probably take it pretty much for granted that the oil industry will supply you with dependable gasolines and motor oils for your car.

Your confidence is well placed. In the 90 years since the Drake well "came in" in Pennsylvania, oil has progressed from "rock oil", a medicine advertised as good for man and beast... through an age of kerosene, when petroleum fueled the lamps of the world... to the great industry which today supplies you not only with gasoline and motor oil, but also with heating oils... with rubber... house paint... insecticides... detergents...

plastics... cosmetics... solvents... a list of products too long for printing!

This week, October 16-22, the oil industry specially marks the great progress made since 1859—progress evident in the scientific methods used in the search for oil; progress in the production and conservation of oil; progress in oil refining and the development of new petroleum products; progress in distribution which makes oil products available to every American.

The two million men and women of the industry are proud of its accomplishments; at the same

time, they recognize an obligation to you as the customer whose needs have made progress possible, and to the nation which provided the encouragement of an enterprising spirit along every step of the way. In the discharge of that obligation, the oil industry looks at today's progress in terms of your needs for tomorrow.

HUMBLE OIL & REFINING CO.

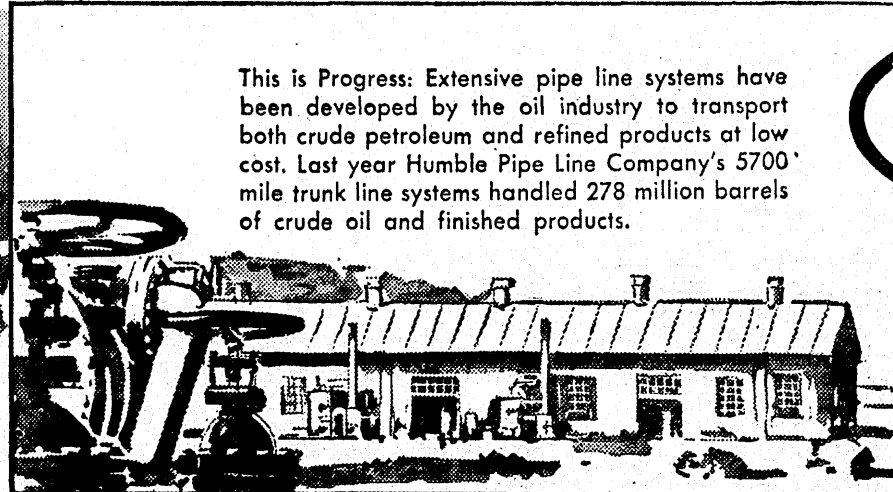

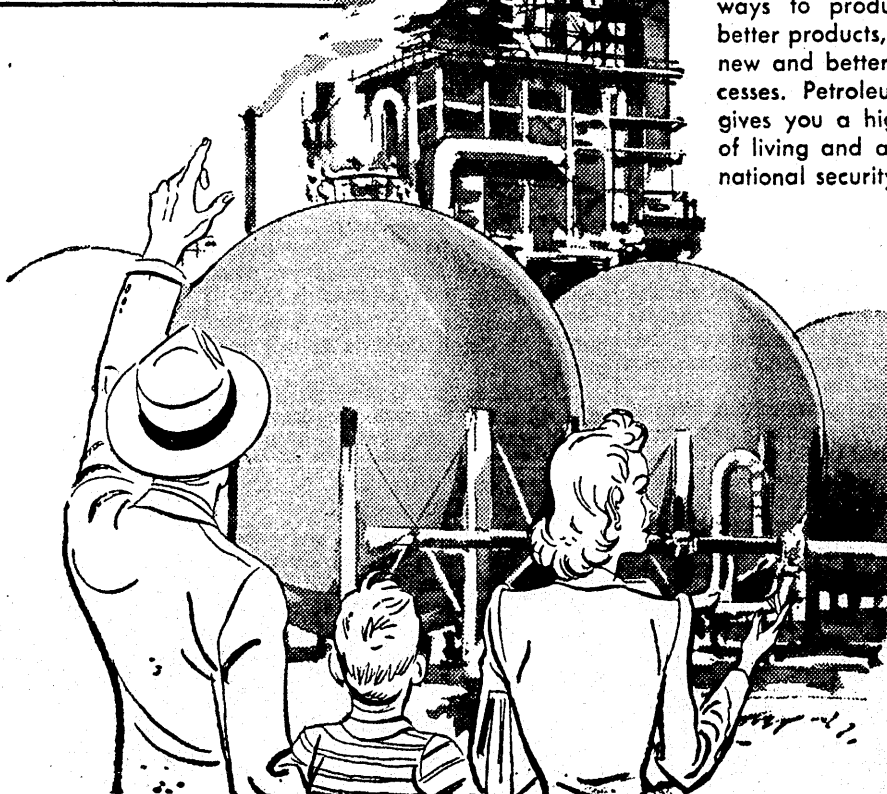

HUMBLE

This is Progress: Extensive pipe line systems have been developed by the oil industry to transport both crude petroleum and refined products at low cost. Last year Humble Pipe Line Company's 5700-mile trunk line systems handled 278 million barrels of crude oil and finished products.

This is Progress: At Humble's Baytown, Texas, refinery, scientists continuously explore ways to produce new and better products, and to devise new and better refinery processes. Petroleum's progress gives you a higher standard of living and a strengthened national security.

This is Progress: The search for oil frequently leads Humble geological and geophysical crews into such isolated areas that a helicopter is used for surveying and for transporting men and equipment.

A barrel of quality in every bottle—and it doesn't take a barrel of money to buy it. At your favorite package store or bar.

olution calling for submission of information on both conventional armaments and atomic weapons, and a French amendment adding inspection to the Soviet plan. The Soviets are expected to veto the amendment when it comes to a vote.

Later this week, the spotlight will shift to Flushing where the assembly will meet in plenary session to vote on candidates for the security council and some of the resolutions which have been passed on by committees.

American-backed Yugoslavia and Russian-sponsored Czechoslovakia are in a close race for one of the three council seats to be vacated. A western source yesterday predicted the Yugoslavs would get the necessary two-thirds vote.

The winner will replace the Soviet Ukraine on the council and the other two seats are expected to go to India, replacing Canada, and Ecuador, taking the seat of Argentina.

REBEL FORCES SAY CIVIL WAR STOPPED

ATHENS, Oct. 17.—(P)—Communist-led rebel forces, staggered by the government's recent big drive on last strongholds near the Albanian border, announced by radio today they have stopped the civil war but won't lay down their arms.

The Greek general staff reported monitoring the Rebel radio announcement which, came as the United Nations moves to settle the Greek-Balkan conflict neared a climax.

War Minister Pemsotitis Kanellopoulos declared, however, he wasn't impressed by the rebels' announcement they had stopped fighting. He said: "It merely admits an accomplished fact—the complete defeat and disappearance of Communist bandits from Greek soil."

"The guerrilla army remains intact, strong and on the alert," the rebel broadcast heard here this morning declared. "We have not laid down our arms. We have just stopped the bloodshed in Greece."

Greek government officials and U. S. army observers here say the rebel radio is located at Bucharest, Romania. The United Nations special commission on the Balkans, established to report on fighting in Greece, has charged that Communist Albania and Bulgaria have been actively aiding the Greek guerrillas.

Yugoslavia, the U. N. commission reported, stopped aid last summer after Premier Marshal Tito's fight with Russia and her satellites deepened.

For nearly a month negotiations have been going on in the United Nations assembly meeting at Lake Success, N. Y., seeking to get Russia and her Communist satellites to withdraw active aid from the guerrillas.

CZECH GUERRILLAS HALT IN GREEK WAR

PRAGUE, Czechoslovakia, Oct. 17.—(P)—The Greek rebel radio last night announced that Communist-led guerrillas had ceased military operations temporarily in the Greek civil war.

The broadcast, monitored here and published today by the Czech newspaper Povolnik, said the "Greek democratic army" had ordered fighting against Athens government troops

FAIR ENOUGH

(Continued from First Page)

appeal to morals, reason, resentment and the record. That record shows that it was the union bosses who appealed to hatred and shed blood and corrupted our government.

Inasmuch as the editors of the Wage Earner have elected to deal with me in religious terms, I hope, but without confidence, that some of them will now face the moral question of the guilt of their own Philip Murray, the president of the C. I. O. This man is put forward as a religious layman of the highest type. I do not inquire into his conscience. But, as a citizen, I demand an explanation of his conduct in important crises and continuing developments. I demand retribution, restitution and public contrition. Those disorders and the consequent degradation of popular government harmed me as a citizen.

The C. I. O. was the political product of a campaign of criminal riots and other crimes such as arson, vandalism, intimidation, atrocious assault and insurance amounting in all to treason against some of our states. Philip Murray, the Reuther brothers of the United Auto Workers and many other individuals still powerful in the C. I. O. and its components, took part in that tumult either on the picket lines or in headquarters. They are political beneficiaries of those crimes. Their present power and panoply are ill-gotten profits of nefarious conduct. The "members" who were "organized" in those criminal uprisings were dragooned, not persuaded.

As I said, I do not inquire into Murray's conscience. But, as a citizen, I hold him accountable and responsible. Whatever arrangements he has made with his confessor, he still has to get right with me. Just now he pretends to be trying to throw the Communists out of the C. I. O. I am not impressed. I am impressed, however, by the fact that for about ten years, mostly under Murray's presidency, the general counsel of the C. I. O. was Lee Pressman, one of Felix Frankfurter's ulterior cult of Harvard study boys which also included the Hiss brothers. Pressman last year refused to answer under oath whether or not he was a member of the Communist party. I assert that Murray could not have been ignorant of the truth while he and Pressman were collaborating in the high consistency of the C. I. O.

When the Wage Earner says "some unforeseen event intervened" it plays to my strength. Yes, the brutal C. I. O. insurrections intervened and the awful corruptions in those unions of the A. F. of L. which embrace most of its membership. Those and other abominations intervened and convinced me, finally, that this American unionism was fundamentally and incurably vile and inconsistent with morals and the constitutional rights of the people of our states. This unionism and the accustomed liberties of those people cannot exist together. Either the people destroy the unions or the unions enslave the people.

In Germany we hanged military commanders for crimes done by their subordinates. They said they could not control these subordinates. But we held the commanders responsible anyway. We also hanged some political leaders for complicity in creating these ungovernable forces.

I hold Murray, the Reuthers and the rest similarly responsible.

Inasmuch as I am in the right and the Wage Earner is in error, I will not be needing those prayers on Pegler day for the purpose specified. I yield them to Murray and the editors of the Wage Earner for the same purpose.

STRIKES

(Continued from First Page)

aluminum company strike, just as they are in the steel strike.

Murray insists industry pay the entire cost of a pension and insurance program—exactly as the presidential fact finding board recommended. Big steel has offered to pay the 10-cent package recommended by the board—but not unless the steelworkers contribute too.

Big Aluminum Company of America, which makes 50 per cent of the nation's aluminum, says it met the steelworkers' demand for six cents for pensions and four cents for insurance.

The company said negotiations collapsed Friday night over the union's refusal to accept a provision that the proposed pension plan be subject to any future adjustment in federal social security laws.

Murray says the aluminum company's pension proposal "would have led to a reduction in the company's pitifully inadequate retirement payment to its old employees." He added: "Under the guise of so-called integration with the federal social security structure, the company proposed a plan for the virtual elimination of the company's social obligations to its retiring employees."

There was little, if any picketing, at Alcoa's plants. At New Kensington, Pa., where 4,000 are employed, three union representatives and three company officials appeared at the main gate.

"This strike is very orderly, an official commented. "The men simply are not coming to work."

Other Alcoa operations were struck at Badin, N. C.; Alcoa, Tenn.; Bridgeport, Conn.; Edgewater, N. J.; Detroit; Bauxite, Ark.; Richmond, Ind., and Mobile, Ala.

As the C. I. O. Steel Workers struck Alcoa, Murray continued his stumping tour of steel centers at Bethlehem, Pa.

"Frankly, I do not know when the strike will end," the veteran labor leader said at a news conference. Then, in a speech to some 20,000 steel workers, Murray declared some steel companies "believe the non-contributory principle in pensions is okay for steel executives but not for the workers."

Murray said he has been out of touch with U. S. Conciliation Director Cyrus Ching and added the steel workers are "prepared for an enduring struggle to win the security to which every human being is entitled."

SAWYER PREDICTS IDLING OF 5,000,000

WASHINGTON, Oct. 17.—(P)—If the steel strike runs to Dec. 1 it will idle 5,000,000 workers and seriously

damage the nation's economy, Secretary of Commerce Sawyer said last night.

"Strikes and threats of strikes" already have changed an upward trend in business and employment, which held almost all summer, he said in a statement, adding:

"By December 1, if the strike continues, unemployment directly attributable to the strike will be approximately 5,000,000."

"Furthermore, it is estimated that by January 1 there will, in effect, be a complete shutdown in the metal-consuming industries."

Sawyer said that the steel strike which began Oct. 1 has cut steel production to 10 per cent of capacity, causing metal-consuming industries to draw on their existing inventories. Should the strike continue to Nov. 15, "it is expected that shortly after that date 80 per cent of the production of these steel-consuming industries

will be lost, with serious damage to the nation's economy."

Sawyer expressed concern for more than 200,000 small manufacturing firms and additional thousands of service establishments which he said depend on steel.

There was no immediate indication that his survey of the possible effects of the strike was an advance signal for some drastic government move. So far, President Truman has left the steadily-growing steel problem in the hands of mediators.

But no progress was reported in last week's government-watched negotiations. Philip Murray, the C. I. O. president, said he had no idea when the steelworkers' strike for company-paid pensions and insurance might end.

And 16,000 aluminum workers went on strike today, joining the hundreds of thousands of steel and coal workers already idle.

Sawyer said commerce department estimates based on recent surveys in-

dicated approximately 2,000,000 workers, including those on strike, will be unemployed even by Nov. 1, if the steel strike continues.

"From November 1 on, unemployment will increase at an accelerated rate," he said. "Between November 1 and 15, according to available information on inventories of iron and steel in the hands of users, the mass production industries, such as the automotive, metal container, machinery, electric appliance and construction industries will find it necessary to reduce the number of their workers drastically."

Sawyer expressed fear that many small firms might have to shut down completely if steel inventory replacements do not become available before November 15. Far too many of them, he added, would not have the capital to reopen.

He called the growth in numbers of small businesses since the war "one of the healthiest characteristics of our

FIVE KILLED WHEN BOMBER HITS WIRES

RIVERSIDE, Calif., Oct. 17.—(P)—A B-26 light air force bomber, apparently lost in fog, crashed into high tension wires near here last night, killing five.

Four of the bodies, one a civilian, were recovered from the wreckage. The aircraft, which did not burn, sprayed gasoline around the area, making it hazardous to search for bodies. Police said the body of a fifth man, known to be aboard, was not found but opined there was no chance he survived.

The bomber was en route from Williams air force base in Arizona to Long Beach, Calif., when it hit the 42,000-volt wires. It crashed 300 feet

economy," and said: "It would be tragic if this trend were reversed."

into a ravine in the hilly section. The plane was due at Long Beach at 5:03 p.m., Pacific standard time, but the wreckage was not discovered until 9:30 p.m., by power company crews seeking the cause of an electric blackout.

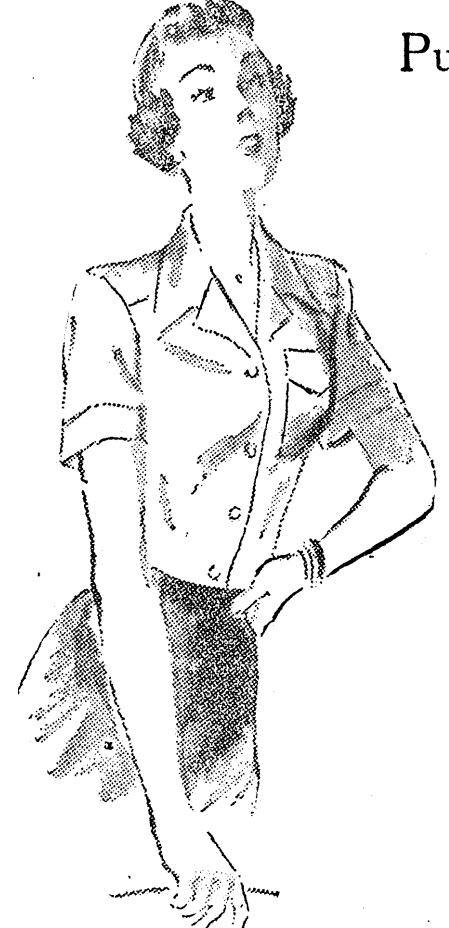

Names of victims were not disclosed pending the usual notification of next of kin.

The plane was on a routine training flight from its home base at Sheppard field, Wichita Falls, Tex. It refueled at Williams.

Scientists have kept accurate records of sunspots since 1749.

War On Tito?

How long can Marshal Tito of Yugoslavia remain a thorn in Russia's side?

The Soviet Union and her eastern European satellites have scrapped wholesale the mutual aid and friendship treaties they had with Yugoslavia, emphasizing that stronger measures are in the making to stamp out Tito's munity.

Foreign affairs observers believe the Kremlin has decided it can no longer tolerate the challenge of Titoism. This rebellion tends more and more every day to damage Russian prestige before the world and undermine the jerrybuilt structure of Soviet relations with its immediate neighbors.

But it seems likely that Tito, emboldened by economic aid from the United States and the prospect of more help from other western powers, will resist all attempts to crush him by mere political pressure and economic strangulation.

In fact, some American and British experts are said to have concluded that Moscow may break Tito if it is willing to use the Red army. Tito has already shown that he can deal effectively with Russian-inspired sabotage and guerrilla attacks. More strenuous tactics would appear to be the only other course open.

If invasion is indeed the sole avenue left to the irritated Soviet leaders, the question is how the attack might be managed to keep it from spreading to a continent-wide or world conflict.

One suggestion is that the Russians might employ aircraft dressed up as anti-Tito Yugoslavs. The aim would be to give the world the impression that the outbreak was a civil uprising patterned on the Greek war. It could then be fed by men and materials pushed across Yugoslavia's borders by neighboring Russian satellites.

The approach is unlikely, however, to fool world opinion, no less than if the attack were an uncalculated Soviet enterprise. Yugoslavia is certain to ask the United Nations, such an event, to condemn the use of force against her.

However an attack would be mounted, the United States and other western nations probably would step up economic assistance to Tito and even send considerable amounts of military equipment.

This help almost certainly would fall short of any outright commitment to defend Tito with western armies. But the risk of involvement for the western powers would still be very great, inasmuch as Russia would feel compelled to choke off the flow of outside aid as completely as possible.

Things having gone as far as they have, is there any way of persuading the Soviet Union not to undertake this final critical stage in her effort to destroy Tito? Perhaps if Russia can be made to realize how great is the likelihood of an unending war, it would instead of a neatly controlled local conflict with Yugoslavia, she will be deterred from using force.

She may conclude that it is better to live with a troublesome thorn in her flesh than to hazard a war that could inflict mortal wounds upon her and many other nations.

Speaking of the housing problem, it will be noticed the birds do not hold conferences on the matter but get busy and build nests.

by HENRY M'LEMORE

LONDON—A batch of letters from readers reached me from the New York office today, and while dawdling over a breakfast of broiled kipper and poached old school tie (you must try a poached Rugby tie sometime—simply marvelous), I read them.

I won't be able to make it, but a hat company cordially invites me to drop by New York's "21" and talk and sip with Robert Montgomery, who, it seems, is now a radio commentator. I'd like to be there, because I'd like to meet the man who, to my way of thinking, starred in the best moving picture ever made in the United States—"Night Must Fall."

A dun from the Winged Foot Golf Club of Mamaroneck, N. Y., puzzles me. The club says I owe it \$1.05, and that this debt was run up on August 31, during the course of play for the Walker Cup by British and American golfers. As I happened to be in Spain at the time, I don't see how I could owe the club \$1.05. It is possible that some person used my name at Winged Foot, but it is hard for me to believe that anyone has ever been so desperate as to go about posing as me.

Have shingles and the whole world sympathizes with you. The bulk of the mail that came in today was from men and women who had had or still have the accursed ailment. They all sympathized with me, and nearly all home-made ones to fancy ones that required the help of practically every great physician since Osler, and electrical paraphernalia sufficient to fill the innards of a B-36.

My favorite, however, is this one from Mr. R. W. Uttinger, 2033 Hernandez, Pensacola, Fla., and I quote quite freely from it:

"This one cured my brother-in-law. He took the severed head of a chicken, preferably black, because the one that turned the trick was black, and let the hot blood pour over the affected spot. You'll get relief in two hours. Beg pardon, Mr. Applegate says that he got immediate relief and slept like a child within two hours stretched out across a bale of burlap bags in his feed mill. The burlap bags had nothing to do with the cure. Commonsense, not medical science, should enable you to figure out the why.

"I am in no way assuming that I am a medical doctor, and please don't hold anything against me that I have written. I am only relating a true incident. Cordially, etc."

I certainly don't hold anything against Mr. Uttinger for having written me. Indeed, I am grateful for any suggestion of a cure for what must be the all-time high in miseries. I am quite sure that I would try the remedy that did such wonders for Mr. Applegate if it were only possible to get a chicken, a chicken of any color, in London. But the labor government is in charge of all British chickens and they are all but impossible to come by. No use trying to get a chicken when you can't get an egg. Also, I have no feed mill or burlap bag couch handy, and they too are difficult to procure when one is a visitor in a big and foreign city.

But as soon as I get back, which won't be long, Mr. Uttinger can bet his boots that some black chicken is

Jimmie Fidler: IN HOLLYWOOD

HOLLYWOOD, Oct. 17.—It seems that anyone who has tickets to sell, for any kind of entertainment, immediately casts about for an alibi the moment that patronage falls off. I'm thinking just now of the walls that are being emitted by two Californian universities, USC and UCLA. Television, they say, has cost them about 40 per cent of the anticipated "gate" at the football games played so far this season. For instance, the USC-Navy game drew only 62,000 spectators instead of the expected 100,000.

I have no doubt that television is keeping some football fans at home on Saturday afternoons—just as I have no doubt that it has cut into theater attendance to a very limited extent. But I'd also be willing to wager that the football "gate" is suffering far more from the same ailment that is afflicting the theaters. The fact is that John and Jane Public are staying at home primarily because they can't afford the high prices asked for tickets.

USC and UCLA have advanced their admission fees to a ridiculous and unreasonable "high." Seats—good, bad or indifferent—for outstanding games are priced at five bucks a throw, and fans are expected to shell out from \$2.50 to \$3.75 for second rate contests. It costs a football fan approximately \$100 a season to see our local gridiron in action, even though he goes to the games alone and leaves the girl friend at home.

With merchants finding the public very cautious now about spending money for the essentials, isn't it obvious that the public will also hesitate before spending money on football and movies? Why give television all the blame? And why not make an honest effort to sell entertainment at reasonable prices?

IDOL CHATTER: It would seem from the tone of Republic's current publicity that studio bosses there have just discovered Joan (Petty Girl) Caulfield in feminine gender—with legs. . . . Add actors I'd like to see more often and in better roles: Melvyn Douglas. . . . Wonder how many times Humphrey Bogart has to be banned from that New York cafe before the management decides to keep him out. . . . Nominations for big-time stardom in 1950: 20th Century-Fox's Helen Westcott. . . . If you want animated conversation from Glenn Ford, introduce the subject of stamp-collecting. . . . Ode to mayhem: "Goah, Miss Star—I completely forgot to have your photographs retouched before sending them to that magazine." . . . The Hollywood bachelors who haven't dated Myrna Dell should organize a club—both of them.

Speaking of Glenn Ford—and I was a moment ago—I'm reminded of a chuckle from the set where he's co-starring in RKO's mountain-climbing epic, "The White Tower." The scene being filmed showed him clawing his way to the topmost pinnacle of the peak, and Ford, struggling up the steep pile of snow and ice provided by the studio snow machines, was using every conceivable hold. Just as he neared the summit—never scaled before by mortal man, according to the script—he dug his right hand deep into the ice crystals and pulled it out clutching a crumpled cigarette package which had been tossed away by some careless set-worker.

"Cut," ordered the director wearily. "It looks like Kilroy's here HERE, too!"

Gregory Peck may not win an Academy Award for his role in "The Gunfighter," but he feels, nevertheless, that it's a part likely to be a milestone in his career. Since several of the scenes call for him to draw a six-shooter with lightning speed, and since he's a conscientious mime who believes in preparing for his assignments, he took his costume, and his guns, home over the week-end and spent hours in front of a full-length mirror practicing the draw. Shortly after the practice started, his five-year-old son, Jonathan, who'd been watching the proceedings with fan worship never accorded his dad before, left the house on the run. He was back, some minutes later, with every youngster in the neighborhood at his heels. Peck now feels confident that in one section of Beverly Hills, at least, he's a reasonably close rival to Hopalong Cassidy.

I'm amused by the crafty business tactics of Charles Bickford. Some weeks ago, a friend in France sent him one of the new cigarette lighters being manufactured there—a novelty using butane gas instead of ordinary fuel. Bickford saw tremendous possibilities in the lighter but doubted that it would sell well at the high price American retailers would have to ask. So what did he do but take a brief opinion on the California sales rights, and then instruct his press agent to put out stories announcing that he had taken over the agency. Within the next few days, having received enough bona fide orders to feel safe, he took up the option.

(Distributed by the McNaught Syndicate, Inc.)

Angelo Patri: OUR CHILDREN

"I WON'T"

Little children of rambunctious age are likely to astound their mothers some morning with a blunt "I won't" when told to do something they ought to do. There is no need to be shocked. The child has begun to feel his self-will to want to use it and feel its power, a perfectly normal and healthy instinct. Because "No" is the easiest word he knows to say and because it is the only word he knows that will express this new proud feeling, he uses it and says, "No, I won't."

Leave it at that. Ignore him. Don't do for him the act you assigned to him. His newborn self must learn to carry its own load and this is the place to begin. Maybe his mother said, "Wash your hands now. Lunch will soon be ready." He said "No," so his mother goes ahead preparing lunch and when it is ready sits down to eat it by herself. That will bring a demonstration of some sort and the calm explanation, "We do things together but you said 'No,' so I went along without you. Have you changed your mind?" Usually he changes his mind, and before lunch disappears.

Whatever is done there must be no showdown of obedience to authority. That is not what is wanted. Intelligent mothers want wholehearted cooperation from their children and forcing surrender to their will is the best way not to gain it. The child's sense of self, rightness, of strength, reaches the child's mind sooner and with greater effort than any sense of conflict.

Teachers and parents should avoid any conflict of wills. Avoid giving a self-conscious child direct orders. Use a strong suggestion instead. When a child shows a rebellious attitude, seem to ignore him. Don't fasten an intent stare on his face. Give the direction lightly and go on with your own tasks, and he will very likely go ahead with the job. Few children can stand the direct pressure of an adult will. They evade its force. Remove the pressure, leaving the situation as it stands in the hands of the child, and he is likely to attend to it. Don't coax, threaten or shout angrily. Anger feeds the child's resistance and rouses a like feeling in him. Leave the situation to him as unfinished business which he will attend to when he gets to it. The attitude of leaving it to him will, in time, bring him to a realization of his relationship to the job.

The only time when forced obedience is necessary is in an emergency. Other times it creates an emergency.

Obedience is the trait most desired in children by parents. To obtain it is often difficult. Dr. Patri discusses the problem thoroughly in his booklet, No. 301, "Obedience." To obtain a copy send 10 cents (coin preferred) and a 3-cent stamp to him, c/o this paper, P. O. Box 99, Station G, New York 19, N. Y.

going to have his neck wrung, and not for boiling or frying purposes, either.

Mr. Charles Freeman of Kinston, N. C., was very interested in my column about the possibilities of making a hamme living from the growing of truffles, and sought the Encyclopedia Britannica to check up on the underground fellows. He was glad to read that sometimes cur dogs, not specially trained pigs and goats, are used in their detection. He writes:

"Now it may be that I could get a monopoly on the cur dogs, as there are plenty of cur dogs in this country, and it seems the people only want the dogs with pedigrees. Of course I realize that this scheme may show up a lot of the dogs which had blue ribbons, for all that would have to be did would be to let the dog get where the truffles was and many a dog would lose his reputation."

I have little doubt that Mr. Freeman, before many years have passed, will be the truffle king of America.

IS THAT A PROMISE?

Jane Eads:

WASHINGTON

WASHINGTON—Willem Balkenende, a young Dutch farmer, thinks life and work on the farm in Holland, Mich., is fine but he learned to play soft ball, to roller skate and swim and he likes those things too.

Jan Dirk Lokhorst, on a Virginia farm, also became acquainted with new things—how to vaccinate turkeys and chickens and how to eat watermelon and corn on the cob.

And while working on a Pennsylvania farm, young Willem Plaisier discovered the old American custom of horseshoe pitching and the new American custom of the drive-in movies. Besides doing his daily chores on a farm in Maine, Ernst Van Der Meer spent three days helping to put a foundation under the local church, went to a high school banquet, attended Rotary Club luncheon.

These youths are among 35 Dutch farmers, all under 25, who came to this country several months ago under the technical assistance program of the economic cooperation administration. They are the first group of farmers to come to the United States from a Marshall plan country. Each will spend six months on a modern American farm, working right along with the American farmer, who pays them from \$50 to \$70 a month for working while learning. Here are some observations the boys made after three months in this country:

A—The Atlantic Charter was highly respected to the world on Aug. 16, 1941, after the Atlantic ocean meeting of Prime Minister Churchill and President Roosevelt.

Q—Where did the expression "son of a gun" come from?

A—According to Brewster's Dictionary of Phrase and Fable the appellation denotes "a jovial fellow. A gun is a large flagon of ale."

Q—Who wrote the Federalist essays which appeared in the New York Gazette, beginning in 1787?

A—More than half of these essays were written by Alexander Hamilton, and the remainder by James Madison and John Jay. They strongly influenced the adoption of the Federal Constitution.

Q—About how many people have lived since the beginning of the Christian era?

A—Since the beginning of the Christian era it is estimated about 40,000,000,000 persons have lived in the world.

Q—Who is referred to as "Harry of the West"?

A—No, it's not Harry Truman. The sobriquet was conferred upon Henry Clay, the American statesman, who for many years represented Kentucky in the United States senate.

MOPSY by GLADYS PARKER

I DON'T SEE WHY YOU RUSHED ME SO? WE HAVEN'T MISSED A THING. THE SCORE IS STILL NOTHING TO NOTHING.

QUESTIONS AND ANSWERS

Q—Who was the first law professor in the United States?

A—It was George Wythe who served at the College of William and Mary, Williamsburg, Va. He instructed John Marshall, Thomas Jefferson, James Monroe, Henry Clay and many other famous men.

Q—What great charter was promulgated just eight years ago this August?

A—The Atlantic Charter was highly respected to the world on Aug. 16, 1941, after the Atlantic ocean meeting of Prime Minister Churchill and President Roosevelt.

Q—Where did the expression "son of a gun" come from?

A—According to Brewster's Dictionary of Phrase and Fable the appellation denotes "a jovial fellow. A gun is a large flagon of ale."

Q—Who wrote the Federalist essays which appeared in the New York Gazette, beginning in 1787?

Q—Who is referred to as "Harry of the West"?

A—No, it's not Harry Truman. The sobriquet was conferred upon Henry Clay, the American statesman, who for many years represented Kentucky in the United States senate.

FUNNY BUSINESS

By Hershberger

DeWitt Mackenzie:

MACKENZIE'S COLUMN

British Prime Minister Attlee's decision not to be stampeded into a general election because of the economic crisis is being hailed by objective observers as daring—and perhaps smart.

It is particularly daring in that the fall of socialism itself in Britain is at stake. The present government still has more than eight months to run if it is to fulfill its normal life of five years. That would mean a general election next July, and Attlee apparently is determined to stand his ground until close to the finish. Political experts predict that the election is likely to come in May or June.

In making his decision the prime minister was faced with weighty considerations. The effect of the recent devaluation of the pound sterling still remains to be seen. It is the government's theory that ultimately it will ease the crisis, but indications are that the transformation may involve a rise in the cost of living and a lowering of wages.

Thus far, however, there hasn't been any great change, although there is considerable uneasiness and the powerful conservative party is crying out in warning of disasters. Harder times—if they come—might hit the country several months hence. All these things being so, wouldn't it be better to hold an election now, rather than gamble on the future?

Attlee decided in the negative, despite heavy pressure from some of his cabinet members from other party leaders. In this connection we have had the interesting spectacle of the prime minister making a decision which is a spanking for one of his leading ministers.

Hal Boyle's

NOTEBOOK

NEW YORK.—(P)—Being a godfather is harder—in some ways—than being a father.

Fatherhood just comes naturally. It is all unofficial. You wait in a hospital room until a nurse steps out and murmurs in an anticipatory voice: "Well, you're a father now."

Simple! But godfatherhood is another matter entirely. It is official. And it takes place in a church, where the Lord can overhear any pledges you make to tend for a child that isn't your own. Yes, being a godfather is a much more responsible and selective act than merely being a father.

Fathers just happen. Godfathers create themselves deliberately. If all this sounds a bit smug, it is because I am pitching a penny for the proud but neglected status of godfatherhood, into which I entered recently.

Some two years ago Frances and I moved into a tremendous housing project on the east side of Manhattan holding some 35,000 people. The life insurance company that built it ruled out dogs but announced it welcomed children.

The idea probably was that dogs rarely grow up and buy life insurance policies but children sometimes do. Anyway the tenants joyously took the company at its word. Within a year the place was nicknamed "the hatchery," and a man going to work had to beat his way past a solid wall of disservice salesmen. Now there are more babies around than television sets.

A young neighbor couple had a daughter, Nina. We fell in love with her and they said we could be her godparents. Months went by and nothing happened. "People are always saying we can't be godparents to their kids," I complained to Frances, "but nothing ever comes of it. What am I supposed to do—nothing I feel as useless as a Kentucky colonel in Vermont."

Well, word got back to Nina's mother. The next Sunday she frocked the child in something pink, and off we went to the church. It was christening ceremony.

And it was then at last I was sworn in as a real 24-karat godfather. It is an odd feeling. For the first time I understood why women weep at a wedding.

I felt that way as Nina, laughing, kept jumping up and down why the immortal words were read over her headless head. But she quieted down and listened gravely as the minister lifted her, doused her blonde locks with water—and welcomed her to Jesus.

Afterward the minister assured me that a godfather held no honorary title, but had real duties and shouldn't enter into his condition lightly or

esters and a highly important figure in the party—Anselm Bevan, minister of health, who is a left wing Socialist.

Bevan has been battling for a quick election. He is one of the brilliant men of the Socialist party. He is powerful and is reputed to be after the job of prime minister, hammer and tongs. But Mr. Attlee's general appearance of mildness covers a very tough courage. Thus the conservative side of socialism remains in the saddle.

British Socialist observers who know Attlee well say that his decision is impelled by a desire to make good his election pledges to the public. Among his most important promises were to nationalize the great steel industry and to reform the house of lords so as to weaken its power to hamstring legislation in the house of commons. These two things remain to be done, and Attlee proposes to make them an accomplished fact before he faces another election.

That is an attitude which is likely to appeal to the British public which respects straight—from the shoulder talk and the fulfillment of promises. Moreover, the government will be in the position of saying at election time: "We didn't run away from the crisis. We devalued the pound, and then stood by."

Of course some unforeseen development might make Attlee change his mind about the time of election. But as things stand it is likely to come about the witching months of May or June when the skies are smiling and England's weather is at its best so that the whole country can swarm to the polls to pass judgment on Socialism.

WINNFIELD SCHOOL IS NOW COMPLETED

WINNFIELD, La., Oct. 17.—(Special)—The new physical education classroom, farm shop and agriculture classroom building of the Winnfield High School has been completed and occupied at a cost of \$18,300. This new building is located to the rear of the Winnfield High School.

The building is constructed of brick and began construction in the early part of August.

According to Eugene F. Love, Winnfield agriculture teacher this building provides more space and better facilities for instructional and shop work. It will enable the school to enlarge its agriculture program. Some new equipment has been added to the farm shop.

Nursing Officials Make Plans For 44th Annual State Convention

Three Hundred Nurses Expected To Attend Convention Scheduled Here In Near Future

Approximately 300 nurses from cities throughout the state are expected to be in Monroe for the annual convention of the State Nurses Association which will convene at the Virginia Hotel from November seventh through the tenth.

Miss Dorothy Hinckley, assistant executive secretary of the American Nurses Association; Miss Hortense Hilbert, chairman of the national structure study committee, and Miss Lucy Harris, dean of Harris College of Nursing at Fort Worth, Texas, will be the principal speakers at the meeting which will have as its theme, "The Nurse as a Citizen."

Officers and members of the board of directors of the organization who are making plans for the three day event include: Miss Una Collins, of Shreveport, president of the State Nurses Association; Miss Ann Nicholas, of New Orleans, secretary, State Nurses Association; Miss Lora Golden, of Baton Rouge, treasurer; Miss Harriet Mather, of New Orleans, president of the La. League of Nursing Education; Miss Edna Irl Mervhenny, president of the New Orleans State Organization of Public Health Nursing; Mrs. Jimmie Faye Williams, of Monroe, chairman of the private duty section of state association; Mrs. Jimmie Miller, of Monroe, president of district nurses association; Mrs. Carlette Bayne, secretary of the local nurses group; Mrs. Vera Elizabeth Thomason, president of the St. Francis alumnae, and Miss Mallie B. Reese, chairman of the private duty section Monroe District Nurses Association.

LEAGUE OF VOTERS POSTPONES MEETING UNTIL NEXT MONDAY

The monthly meeting of the League of Women Voters scheduled at the Virginia Hotel on Monday evening has been postponed until next Monday at 7:30 p. m. at the same place. Mrs. Albin Lassiter, president of the League of Women Voters, has announced.

The theme of the session will be "United Nations."

FORMER NEVILLE STUDENT WEDS

Mrs. John S. Davis, who before her marriage on Saturday in Houston, Texas, was Miss Carol Stegall, daughter of Mr. and Mrs. J. W. Stegall of Delhi.

Carol Stegall Becomes Bride In Impressive Ceremony In Houston

A wedding at the Bethany Christian Church of Houston, Texas on Saturday at 5 p. m. united in marriage Miss Carol Stegall, daughter of Mr. and Mrs. J. W. Stegall of Delhi, and Mr. John S. Davis, son of Mr. R. L. Davis and the late Mr. Davis of Houston.

The Rev. E. D. Henson, pastor of the church, performed the ceremony, following a prelude of appropriate organ music by Mrs. Carroll Ault, who also accompanied Mrs. J. K. Young, as soloist.

The bride, given in marriage by her father wore a two-piece bridal frock of French blue satin, fashioned with a fitted jacket with self covered buttons and a high jewel collar. Her full gathered skirt was ankle length and she wore matching French blue satin shoes. She wore a satin lattice veil Juliette cap and a shoulder tip veil of matching blue illusion. She carried a white Bible surmounted by an orchid.

Her mother of honor, Mrs. William McCordell, wore an American beauty taffeta gown fashioned with a fitted bodice of pin tucked taffeta and a full gathered skirt of ankle length. She wore matching accessories and carried a bouquet of mixed flowers.

Mr. Howard Davis, brother of the bridegroom served as best man, while the ushers were Mr. Oscar Gerge and Mr. Roy Stegall, brother of the bride.

For traveling the bride wore a toast gabardine suit, with black accessories and an orchid corsage.

Following a wedding trip to New Orleans and the Gulf coast, the couple will reside in Houston.

The bride is a graduate of Neville High School and of Louisiana Tech at Ruston. The bridegroom, a graduate of the Belton Texas High School, attended the University of Wichita.

Personals

Mrs. David I. Garrett is convalescing at her home after a recent hospital stay.

Mrs. Henry Hinkle left Monday for Jackson, Miss., where she will be the guest of her mother, Mrs. W. J. Tremaine.

Mr. Jack McLean has returned to his home in St. Louis, Mo., after a visit to Mr. and Mrs. Ernest Richard.

Mr. and Mrs. E. T. Murphree announce the birth of their first child, a daughter, Theresa Lee, on October 10. Maternal grandparents are Mr. and Mrs. Tristram Tyler, of this city. Paternal grandparents are Mr. and Mrs. B. A. Murphree of Baton Rouge.

Mr. Deryl Norris is a patient in a local hospital where he underwent an operation.

Fifth District P-T. A. Members

Hear Address By National Official

Mrs. Chris Hinning Discusses Effects Of P-T. A. Movement On Development Of Child

The Louisiana Parent-Teacher Association Fifth district members attended a conference held Thursday at Crosley School, West Monroe, and heard an address by Mrs. Chris Hinning, Mitchell, South Dakota, field representative from the National Congress of Parents and Teachers, whose subject was "The Effective P-T. A."

Mrs. Hinning's explanation of the effects of the Parent-Teachers Association movement upon the development and emotional growth of the child was beneficial to every member. She pointed out how this development must be attained in the home, school, church, community and world community; how parents, must strive every day to mold the lives of children so that they may become model citizens. After listening to Mrs. Hinning's address to the assembly, various members expressed their enthusiasm, created by the ideas conveyed by the speaker. How the P-T. A. strives to create a unity between parents and teachers was pointed out.

The state president, Mrs. W. S. Vincent gave an interesting address on "Our P-T. A. Legislation," stressing conditions which exist in La. Mrs. Vincent also explained the proposed bill to be introduced before the next legislature and discussed the bill changing the manner of electing the state superintendent of education from a statewide election basis to appointment by the state board of education. She also explained how the state school funds are allocated and what changes are proposed.

The meeting was conducted by Mrs. James Larkin, Jr., Fifth district director. Assembly singing was under the leadership of Mrs. H. W. Williams, with Mrs. Z. C. Ambrose.

TIBET WOULD LIKE ASSISTANCE OF U. S.

NEW YORK, Oct. 17.—(P)—News-caster Lowell Thomas says ancient Tibet would welcome U. S. aid if the Chinese Communist tried to "free" that country. Thomas arrived yesterday by plane with his wife and son, Lowell, Jr. The commentator was on crutches, having broken a thigh bone last summer in falling from a horse on a Tibetan mountain pass.

The Chinese Communists, Thomas said, announced recently in Peiping that they planned "shortly to free Tibet." The Communists consider Tibet an outer province of China, he said. The remote country has an army of only 10,000. Thomas said there now is a chance that a U. S. mission could be set up in Tibet for the first time in history.

WOODMEN CIRCLE HOLDS ELECTION

Northern District Holds Meeting As Guests Of Parlor City Grove

District officers were elected by the Northern District Louisiana Woodmen Circle. They are as follows: President, Mrs. Bertha Abrams; past president, Mrs. Jewel Earle; treasurer, Mrs. Ora Payne; corresponding and recording secretary, Mrs. Maudie Fant; captain, Mrs. Maggie Beasley; attendant, Mrs. Opal Thompson; assistant attendant, Mrs. Nell Zellar; chaplain,

Mrs. Florence Clemments; musician, Mrs. Isabel Gibbs; first vice-president, Mrs. Nellie Young; second vice-president, Mrs. Roberta Evans.

Parlor City Grove 288 on October 13 was host to the northern district Louisiana Woodmen Circle. Registration was in the lobby of Hotel Virginia, followed by a luncheon at the La Casa tea room. The afternoon session convened at 2 p. m. in the W. O. W. hall with Mrs. Jewel Earle, district president presiding.

Miss Ione Burke of New Orleans, state manager and national committee woman, and Mrs. Gladys Hess of Shreveport, state president of Woodman Circle were welcomed; Mrs. Mollie Gregory of Monroe delivered the welcome address. Response was by State President Mrs. Gladys Hess. These addresses were quite inspiring and were followed by the school of

instructions and ritualistic work by Mrs. Jewel Earle.

There was an open meeting on Hotel Virginia roof at 8 p. m. and there was a large attendance. An interesting program was rendered after which the newly-elected officers were installed by Mrs. Clara Benoit, assisted by Mrs. Opal Thompson. There were drills by Independent Grove, Shreveport, Mrs. Ora Payne, captain and Parlor City Grove, Monroe, Mrs. Nancy Nyland, captain.

Mrs. Isabel Gibbs, district musician, furnished the music for the evening. There was an interesting address by District Manager Saltzman of the W. O. W. in Monroe.

Refreshments were served at the close.

In the Sequoia National Park there are 8,722 giant redwood trees more than 10 feet in diameter.

PARISH W. M. U. MEETS OCT. 19

Good Hope Church Will Be Host To Associational Group

Good Hope Baptist Church will be the host to members of Ouachita Parish Associational W. M. U. Wednesday, October 19, the theme of the meeting to be "Standing on the Promises." The following is the order of program:

10:00—Hymn, "Standing On The Promises." Prayer. Devotional, "The Bow of the Golden Promises," Mrs. E. J. Speagle. Prayer. Hymn, "Lead On O King Eternal."

10:20—Business session: Roll call of societies. Appointment of committees. 10:40—Associational Officers Claiming His Promises. (1) In Enrollment, Mrs. C. C. Lindley; (2) In Mission Study, Mrs. Lila Dunn; (3) In Community Missions, Mrs. J. R. Freeman; (4) In Stewardship, Mrs. D. P. Gerald; (5) In Young People's Organizations, Mrs. E. A. Autrey.

11:15—Hymn, "How Firm A Foundation." Our Jubilee Year, Mrs. W. C. Edwards. 11:30—Special missionary message, Rev. W. B. McNeely (from Brazil). 12:00—Adjournment for lunch.

1:00—Hymn, "Praise Him! Praise Him!" Prayer. Associational officers claiming His promises: (1) Children's Home, Mrs. F. J. Scharf; (2) For White Cross, Mrs. H. L. Morrow; (3) For rescue missions, Mrs. B. F. Skipper; (4) For Christian education, Mrs. D. C. Black; (5) For Mary Lou Jenkins' Fund, Mrs. S. J. Womack; (6) For Margaret Fund, Mrs. R. Q. Cole.

1:30—Committee reports. Election of 1950 officers. Consecration service, "Attempt Great Things for God; Expect Great Things From God," Miss Kathryn Carpenter.

Little Theatre Curtain Call

This crisp October week end found Little Theatre devotees scattered over a number of points from South Bend, Ind., to New Orleans, to Shreveport, Dallas, to squirrel hunters on the Tensas river. Monday evening will find them back together again as the cast resumes rehearsal of "John Loves Mary" and the guys and gals of the work parties get down to business again with their painting and decorating.

Most of us have—but have you ever thought how ultra-romantic it would be to sit cross-legged on the floor and discuss the "arts" with all the fervor and enthusiasm of Greenwich Village fashion. Take it from us, it is just as interesting as Sinclair Lewis ever dared to depict this pleasurable pastime.

We are remembering the discussion we heard recently among Director Stocker Fontelleu, Beth Breese, Jeanette Brower and Jim Reynolds. Director Fontelleu's contention was this: "Anyone with the will to do so, could act," and Jim Reynolds was heartily supporting him in the theory, while Jeanette Brower and Beth Breese catered to that school of thought that demands some prerequisite ability to acting.

After two hours and an offering of good debate from both sides, we concluded that by right of reason, Director Fontelleu won what amounted to a technical decision in the discussion. To sum it all up in a nutshell, "Art in any form is an integral part, even if found in a dormant state, of all human nature. It will come to bloom in expression through the will and desire of the individual assisted by sympathetic direction from an experienced director."

Yes, we got the idea that Director Fontelleu could make an actor even out of us, but that if we had our sights set on the goal of a Barrymore or a Bankhead, then again it was a matter of our own will.

ACTING GEMS—Speaking of acting, even the professionals are constantly discovering newness and freshness in the elusive art—several Little Theatre members are numbered among the select group of Monroe women who have been invited by Melvin Greenblatt, manager of the Paramount Theatre, to attend a special advance screening of "Not Wanted" at the Paramount next Friday morning. "Not Wanted" is one of those pictures referred to in the movie industry as a "sleeper." Produced by Actress Ida Lupino and released through Film Classics, it does not boast a stellar star of reputation but the film capitol was surprised when it was released to find that

CALHOUN P.-T. A. LISTS OFFICERS

Mrs. DeFreese Gives Address At Monthly Meeting

Carey Staples, secretary of the Calhoun P.-T. A., lists the following officers for the year 1949-50.

President, Mrs. Loyd Coon; vice-president, Earl Brooks; secretary, Carey Staples; treasurer, James E. Walker; program committee chairman, Mrs. J. E. Walker; publication, Mrs. H. W. Griggs; publicity, Mrs. W. B. Humble; membership, Mrs. Richard Fuller, Jr.; hospitality, Mrs. Maggie Roberts; magazine, Mrs. J. L. Heath, Jr.; civil service, Mrs. Fred Staples; budget and finance, Mrs. Rowena Roan, and goal chairman, Mrs. Benton Gross.

The room mothers for Mrs. Sutton's first grade are: Mrs. E. M. Finley and Mrs. Jesse Aulis; Mrs. Heath's first grade, Mrs. Gross and Mrs. C. A. Jordan; second grade, Mrs. Ralph Woodward and Mrs. T. M. Nolan; third grade, Mrs. Louis Brown and Mrs. Richard Fuller; fourth grade, Mrs. W. A. Roach and Mrs. M. A. Thompson; fifth grade, Mrs. A. L. Calhoun and Mrs. H. W. Griggs; sixth grade, Mrs. Leon Baker and Mrs. P. H. Camp; Mrs. Taylor's seventh grade, Mrs. Colbert Camp and Mrs. W. T. Mitchell; Mrs. Clinton's seventh grade, Mrs. K. L. Finley and Mrs. David Johnston; Mrs.

Holstead's eighth grade, Mrs. Clifford Foster and Mrs. A. L. White; Mrs. Leachman's eighth grade, Mrs. Rowena Roan and Mrs. Fay Burdeau; Miss O'Neill's ninth grade girls, Mrs. James Finkles and Mrs. Carl Jordan; Mrs. Hayes' ninth grade boys, Mrs. J. S. Sims and Mrs. J. L. Crocker; tenth grade, Mrs. W. B. Humble and Mrs. P. M. Finley; eleventh grade, Mrs. R. L. Carson and Mrs. Fred Staples; and twelfth grade, Mrs. J. A. Kilpatrick and Mrs. C. O. Boyd.

Mrs. M. L. DeFreese, fifth district P.-T. A. director of extension, was guest speaker at the regular meeting of the Calhoun P.-T. A. on October 10. Her discussion of the training of potential leaders, money-making ethics and chief purposes of parent-teacher organization in a community were timely and beneficial. She said in part: "Any parent-teacher group which does not have for its chief aim child welfare, parent education and community betterment, fails all together."

Outlook for an outstanding year for the Calhoun organization are very good.

The big dipper is not a constellation but part of the constellation of Ursa Major, the Great Bear.

MEN'S QUARTET SEEKS MEMBERSHIP

The Barbershop Quartet will meet for the organization meeting in the recreation rooms, Catalpa street, Tuesday at 8 p. m. Already there are more than 20 members and it is desired to have as many as 50. When these are had as charter members the organization will be completed, it is stated. All interested men are urged to attend the meeting Tuesday night.

FIRST JEWISH STATE The first Jewish state was called Eretz Israel (Land of Israel) and its king was Saul, first to unite the Jews about 1050 B.C.

SHREVEPORT

**Pivot City
of the
Central South**

A 200-mile log jam on Red River brought Capt. Henry Miller Shreve to the Caddo Plain more than a century ago. Today there stands, as a monument to this intrepid pioneer, one of America's most enterprising and progressive cities. That is Shreveport, capital of a region rich in natural wealth and resources, ranking among the first 100 communities in the United States.

This is a highly industrialized commercial and shopping center for an area having a population of over two million, and an annual buying power of more than a billion dollars.

Shreveport's 250 industrial enterprises produce over 700 different products, employ nearly 15,000 persons with payrolls aggregating \$24,000,000 annually. Her industries include metal products, lumber and logging, paper and paper products, food processing, ceramics and glass, farm equipment, millwork, furniture and many others.

Shreveport's most valuable industrial asset, however, is petroleum. Since the discovery of the Caddo pool in 1906, Shreveport has reaped a golden harvest of oil and gas. The Sabine Uplift, the geological structure under the region known as Ark-La-Tex, contains one-fifth of the nation's resources of petroleum and a greater reserve of natural gas than any comparable area in the world.

The Shreveport area has a widely diversified and wisely balanced agriculture, leading in the production of cotton, corn, grain, pecans and other food, and rapidly taking the

lead in the development of livestock and dairy industries.

Shreveport is a vital distribution point, with six major railroads radiating in 12 directions and offering rapid service to all principal cities of Mid-continental America. Three major airlines schedule over 30 flights per day in and out of Shreveport's modern airport.

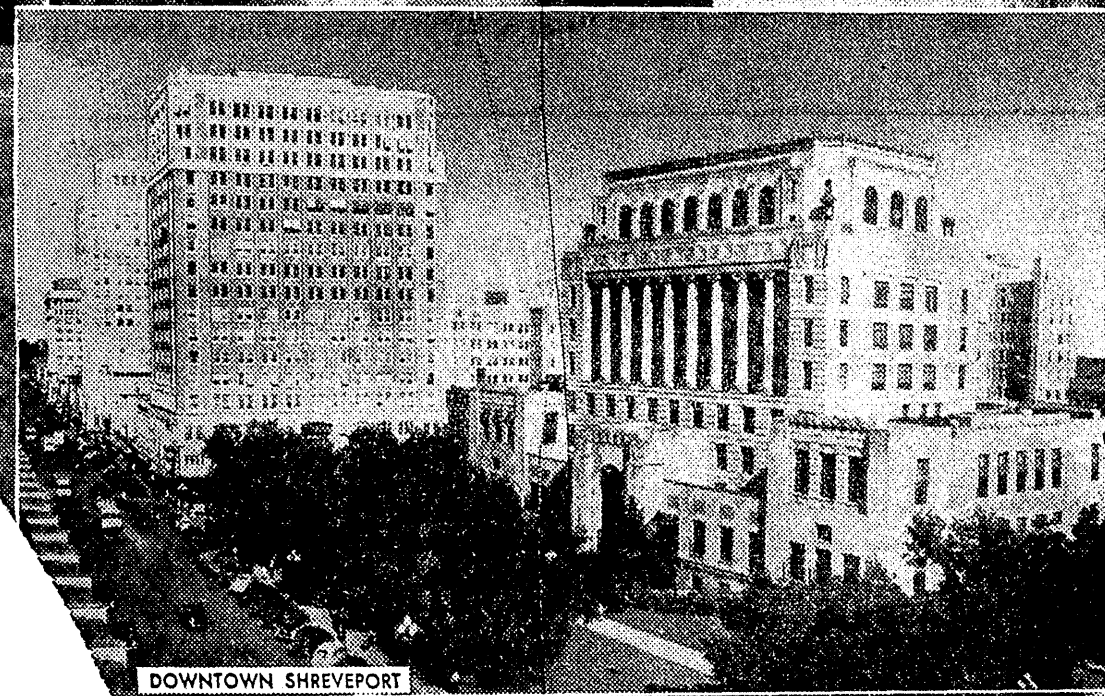

With these outstanding commercial, industrial and agricultural advantages it is easy to see why Shreveport has a per capita wealth that is the second largest in the Southwest.

Shreveport's cultural, educational and spiritual life has kept pace with her industrial growth. This is a city of churches. The splendid educational system is second to none. Shreveport this year has expanded its school plant to a greater extent than any city of comparable size in the United States. Centenary College, oldest institution of higher learning west of the Mississippi River, has made a vast contribution to the scientific and literary advancement of the South.

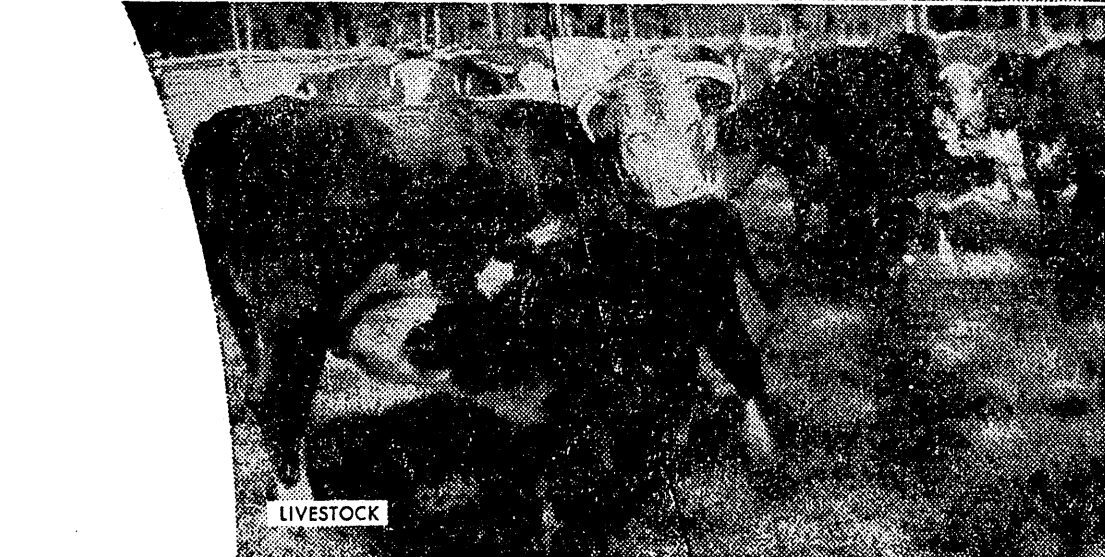

Adjacent to Shreveport is Barksdale Air Force Base, the largest airport in the world and headquarters of the Air Training Command, whose 6,000 officers and men contribute to the social and economic life of the community.

Indeed, Shreveport is today a center of economic and agricultural development.

New Orleans, the International City, salutes Shreveport—pivot city of the central south.

GREEN LIKELY TO ANSWER NO

Not Expected To Accept Lewis Proposal To Help Finance C. I. O.

WASHINGTON, Oct. 17.—(P)—Most labor leaders today expected William Green to reply with a polite "no thank you" to John L. Lewis' proposal that A. F. L. unions help finance the C. I. O. steel strike.

At the moment, Lewis and the United Mine Workers are independent of both the A. F. L. and C. I. O.

Green, a former coal miner himself, is not as angry at Lewis as some A. F. L. leaders who have tangled with Lewis in the past, so he may temper his reply to the Lewis plan for a \$2,500,000 weekly war chest.

The proposal was made by Lewis in a letter to Green, C. I. O. President Philip Murray, running the steelworkers' strike, stepped up Saturday with quick endorsement of the idea that unions "pool their resources for the common defense and general welfare of the labor movement."

That wasn't exactly what Lewis was talking about. He suggested that at least nine A. F. L. unions were rich enough to join with the United Mine Workers in contributing \$250,000 a week each towards the steel strike.

Murray, in a carefully worded statement, also suggested that the steelworkers to the last man would "lend help and assistance to the mine workers."

Lewis' critics said he was making "a grand stand play" to boost the morale of his own miners, who have been on strike since Sept. 19. The union, although it had more than

\$15,000,000 in its treasury at last report, pays no direct strike benefits. Miners at St. Michael, Pa., telegraphed Lewis that "we believe a kitty should be raised to alleviate poverty in the mining fields first."

Most of the 15 A. F. L. executive council members will attend a dinner here Tuesday night. Some said Green might put off a decision until after that session.

All Available A. F. L. leaders said they were doubtful of Lewis' proposal. They called it a "publicity stunt" and said that if he meant it, the U. M. W. boss could have called a unity meeting before making the proposal public.

Lewis and the soft coal operators are due to resume their contract discussions at Bluefield and White Sulphur Springs, W. Va., Tuesday afternoon.

No progress was reported in last week's government-watched negotiations. The federal conciliation service appeared inclined to allow only one more week before recommending White House intervention.

Conciliation Director Cyrus S. Ching, back from New York where he has conferred for three days with top officials of Bethlehem Steel Company, said he was calling on steel company spokesmen into private talks this week.

SMALL HURRICANE BECOMING WEAKER

WASHINGTON, Oct. 17.—(P)—A small hurricane sprang up this week and in the Atlantic ocean grew weaker today and was expected to die out about noon (E. S. T.).

The center of the disturbance was reckoned about 250 miles northeast of Bermuda just before last midnight. It was moving east northeast at about 20 miles an hour.

The weather bureau reported winds of hurricane force, 75 miles an hour, at the center of the storm, with gale force blows—55 to 60 miles an hour—extended out 500 miles west, 300 miles north and 100 miles east and south.

The storm offered no threat to land but shipping in its path was advised to use caution.

HEADS OF CREDIT BUREAUS CONVEENE

BIRMINGHAM, Ala., Oct. 17.—(P)—Managers of credit bureaus in Alabama, Mississippi and Tennessee are here for a three-day conference "to encourage the sound use of credit."

Alfred T. Gaut, Sylacauga, president of the Associated Credit Bureaus of Alabama, presided over the opening discussion yesterday.

Among visitors for the conferences are Miss Sadye Russell, Laurel, Miss. president of the Associated Credit Bureaus of Mississippi; Jarold A. Wallace, St. Louis, Mo., executive vice-president of the Associated Credit Managers of America; and Francis Auger, president of the Southeastern District of the National Association.

BOEUF RIVER TO HAVE HOMECOMING

Next Sunday has been set as the time for homecoming day at Boeuf River Baptist Church, located about eight miles from Winnsboro. The day's program will begin with Sunday School at ten o'clock, followed by preaching service at eleven. Dinner will be served "on the ground" after the morning service. All members of the church are urged to be present, and all former members and friends of the church who can do so without neglecting their obligations to their own churches are cordially invited. A brief program of singing and special music will be arranged for the early afternoon.

Boeuf River Baptist Church is entering into a building program, and plans are being consummated to begin the erection of a modern and up-to-date church building about November 1. The building will consist of an auditorium and a two-story educational building which will accommodate 300 in a fully departmentized Sunday School. At the homecoming day services cash offerings and pledges will be received from the members of the church toward the erection of this building. No campaign of personal solicitation is planned, but the work will be financed by members and friends who see the need and have a desire to make a permanent investment in the spiritual and cultural future of the Liddleville community and its people, especially the rising generation.

A light year means a distance of about six trillion miles.

ASKS PASSAGE OF D. P. BILL

Citizens Committee Wants Unchanged Measure Okayed In January

WASHINGTON, Oct. 17.—(P)—The citizens committee on displaced persons wants the senate to pass next January the now-shelved D. P. bill "as it stands."

"The legislation to bring in additional thousands of homeless Europeans to America, said this private group, should not be 'mutilated and emasculated beyond recognition as the apparent attitude of Senator McCarran would portend."

The committee statement was distributed from New York last night by Earl G. Harrison, chairman. Harrison urged senate passage of the house-approved Celler bill "as the one measure that can liberalize the discriminatory D. P. act of 1948."

The senate voted Saturday night, 38 to 30, to send the measure back to its judiciary committee. It recommended return of the bill next January 25.

Chairman McCarran (D-Nev.) of the judiciary committee, now traveling in Europe, had urged that the

senate take no action this year. He said the objectives of the bill, written by Representative Celler (D-N. Y.) is to destroy immigration barriers and flood the country with aliens.

During debate on the bill, Senator Cain (R-W.) criticized the citizens committee headed by Harrison as a powerful lobby. Its statement last night said that among backers of legislation to amend present law were the A. F. of L., the U. S. chamber of Commerce, and major religious groups.

President Truman also backed the bill. He charged that existing D. P. legislation is "anti-Catholic and anti-Semitic." McCarran, himself a Roman Catholic, denied this charge.

The bill would raise the number of European war refugees who can enter this country from the present 205,000 in two years to 339,000 in three years.

For practical purposes the senate action gave the bill an unofficial standing about third among next year's senate issues.

Leaders have promised a house-approved oleomargarine tax repealer

WATCH REPAIRING

and Herbert Jones
HOWARD BROS.
JEWELERS
Immediate Service

will be the first to see senate action in the second session of the 81st congress. They also have put civil rights legislation on the list for speedy attention when congress returns.

Saturday's victory for critics of the displaced persons bill was discounted by Senator Myers of Pennsylvania, the assistant Democratic leader.

He told reporters he thinks that when the senate takes it up again the bill will get overwhelming approval.

He added that many of those who voted to shelve it temporarily did so, not because they were against the bill, but because they wanted to speed the adjournment of congress. Opponents had threatened lengthy talk which might have put off quelling time for several days.

Senator Ives (R-N. Y.), a supporter of the bill, said it may be next March

or April before proponents can get it up again.

Although Mr. Truman made the present D. P. law—passed by the Republican 80th congress—an issue in last year's campaign, both major parties were represented on both sides of the effort to revamp it.

Senator Dulles (R-N. Y.), running in next month's special senate election in his state, and Senator Taft (R-Ohio), running for reelection next year, hurried back to Washington to vote against the motion sending the bill back to committee. The motion was offered by Senators Cain and

Eastland (D-Miss.).

On the showdown vote, 17 Democrats joined with 19 Republicans to send the measure back to committee. Sixteen Democrats and 14 Republicans opposed that action.

Check Itching First Application

Agonizing itching of ugly eczema, Rash, Tetter, Ringworm, Pimples, Scabies, Toe Itch is checked on ONE APPLICATION of BLUP STAR OINTMENT. Repeat as needed as nature helps heal. Money back if FIRST jar fails to satisfy. Try it today.

HEADACHES

Relieved Quickly With Fast-acting "BC" Powders or Tablets

When you use "BC" for the relief of simple headaches, neuralgic pains or minor muscular aches you get the full relief-giving effectiveness of not just one, but several of the world's most popular pain-relieving ingredients. In combination these ingredients are remarkably effective—far more so than either would be alone. This is something worth remembering when a headache strikes and you want relief, and want it in a hurry.

Nowadays when you buy "BC" you may have it in either tablet or powder form. In both you get the same famous "BC" formula—the same fast relief. You also get a preparation that has stood the test of time—one you can use with complete confidence. Buy "BC" today and use as directed. You'll agree that nothing is more comforting or relieves faster. Two "BC" Tablets equal one "BC" Powder. 10c & 25c sizes.

AMAZING PAZO ACTS TO RELIEVE PAIN OF SIMPLE PILES INSTANTLY

Speed amazing relief from misery of simple piles, with soothing Pazo. Acts to relieve pain, itching instantly. Lubricates dry, hardened parts. Helps prevent cracking, reduce swelling. Don't suffer needless torture of simple piles. Get Pazo for comforting relief. Ask your doctor about it. Supplying form or tubes with perforated top. *Pazo Ointment and Suppositories.

PAIN OF RHEUMATIC MISERY CAN BE HELPED

READ THIS GUARANTEED OFFER!

Don't "run up the white flag" to nagging, disabling rheumatic type pain of simple neuralgia, sciatica, lumbago, muscle aches... get real help you can get... get C-2223 today! It contains the famous, beneficial herb "Black Snake-Root." And it's especially localized to speed up the Salicylate Action that makes it penetrate tissues better to give you fast, effective pain relief. Its wonderful help has won the praise of thousands. It can do the same for you. Buy C-2223 today! *Ask bottle purchase price back if not satisfied.

unification law does not permit a major change in functions without approval of both the house and senate armed services committees.

However, Denfeld added, attempts at limiting functions have been made by interpretations of language in regulations. He said naval aviation and the marine corps can be put out of business if the money to support them is choked off in the councils of the department of defense.

The committee, poised midway in its investigation of national defense planning, was split several ways on what it might do about the situation its hearings have brought to light.

Some members suggested over the week end that congress put a tighter rein on Johnson's budget power and give the navy permission to build its 65,000-ton super aircraft carrier. Work on the vessel was halted last spring by Johnson.

Other members said, however, that perhaps the tighter rein should be on navy leaders who resist the 1947 unification law, rather than on the secretary of defense.

The current phase of the committee's inquiry was kicked off by reports that navy morale is sinking because of economy orders striking hard at sea-going aviation. The navy demanded, and got, a chance to air all of its complaints about Pentagon policy-making.

In a solid week of testimony, coming from broad-heavy admirals and young junior officers alike, the navy made the following main charges:

1. That emphasis on the atomic bomb as a decisive weapon tends to produce a false sense of national security.
2. That strategic bombing, which navy witnesses defined as indiscriminate, mass air attacks on cities and industrial targets, is morally wrong and of little direct military value.
3. That the air force is concentrating on the B-36, its heavyweight, long-range bomber, to the point of neglecting its other planes, such as tactical bombers and fighters.

Navy witnesses challenged the B-36 itself. They said it would be detected easily by radar, could be intercepted without difficulty by jet fighters, and could be shot down by guided anti-aircraft missiles.

Secretary Johnson, it was learned, intends to pursue the same hands-off policy in the presentation of the cases of the air force and army that he did in the instance of the navy.

This would put it up to Secretary of Air Symington, Gen. Hoyt Vandenberg and other policy-makers the question of how lusty should be air force rebuttal to navy denunciations of air force planes and strategy.

BORAH

(Continued from First Page)

on the legal staff of Adm. Harold Stark in England.

Wright left the service and resumed his duties in December, 1945, as assistant U. S. district attorney. He was appointed to that post in August, 1937. Later, he resigned as assistant and entered private law practice in Washington.

The American Bar Association's house of delegates recommended both Borah and Wright for the federal judgeships. Borah would succeed the late Judge Elmo P. Lee of Shreveport.

Deaths

BRODIE GIBSON

Brodie M. Gibson, 71, resident of West Monroe, died Sunday in a Monroe hospital. The funeral was held in Union Cemetery near Marion, Monday at 3 p. m., with Catron-Gay Funeral Home of Delhi in charge of the interment. Rev. Williams of Mer Rouge officiated.

Mr. Gibson is survived by three daughters, Mrs. A. L. Hammons and Mrs. J. D. Johnson, both of West Monroe, and Mrs. O. M. Bingham of Mer Rouge; a son, Roy Gibson, Mer Rouge, and 11 grandchildren.

INFANT SULLIVAN

The infant daughter of Mr. and Mrs. Earl Sullivan of Pioneer died in a Delhi clinic early Monday. The funeral and interment took place in the Bayou Macon Cemetery Monday at 2:30 p. m. with Rev. Ralph Hatten officiating.

The child leaves her parents, two sisters, Shirley Ann and Linda Fay Sullivan; her paternal grandparents, Mr. and Mrs. F. W. Sullivan of Pioneer, and her maternal grandparents, Mr. and Mrs. Walter Myers of Pioneer.

Catron-Gay Funeral Home of Delhi had charge of the interment.

INFANT GARRETT

The infant son of Mr. and Mrs. Edward B. Garrett of West Monroe, died shortly after birth early Monday morning in a local sanitarium.

Funeral services were held Monday at 2:30 p. m. in Hasley Cemetery, under the direction of Hall Funeral Home.

The infant is survived by his parents; paternal grandparents, Mr. and Mrs. L. C. Garrett of Monroe; maternal grandparents, Mr. and Mrs. G. B. Hollingshead, Sr., Baytown, Texas.

GORDON BRAZEAU

SPEARVILLE, La., Oct. 17.—(Special)—Gordon Brazeau, 56, died in his home here Sunday from a sudden heart attack. The funeral was held Monday at the house at 3 p. m. Rev. J. L. Smith and Rev. R. W. Rhodes officiated. Interment was in the Spearsville Cemetery, directed by the Kilpatrick Funeral Home.

He is survived by two brothers, I. P. Brazeau and Clarence Brazeau, Kansas City, Mo., and three sisters, Mrs. T. B. Heard, Homer, La.; Mrs. T. J. Smith, Spearsville and Mrs. J. F. Brazeau, El Dorado, Ark.

CLUES

(Continued from First Page)

robbery, Clamplitt added, carrying officers to the spot where he had hidden the loot.

Queens has waived removal and indictment and will be sentenced in Charlotte, N. C., federal court, Clamplitt added. Williams will face trial in Sixth district court on two state charges of burglary, after which federal charges may be filed.

Queens' extra-curricular activity netted exactly zero, Clamplitt said, while Williams didn't have time to spend the \$30 in cash and stamps which he obtained.

Credit to Deputy Sheriff Edgar Duncan, Richland, and State Trooper G. K. Maxwell, Rayville, was handed out by Clamplitt who said Duncan worked 48 straight hours on the case, tracing Queens, alias Russell. Deputy Sheriffs Charles Muirhead and Carl T. Brown assisted in the Sondheimer case, Clamplitt added.

TWO ARE ARRESTED FOR DRUNK DRIVING

Monroe police arrested two men for operating motor vehicles while under the influence of intoxicating liquor over the week end. They are: John Oneal, 22, of 306 Linderman street, West Monroe, released under \$350 property bond and A. A. Moore, 55, of Fort Necessity, held in default of \$250 bond.

They will be tried in city court Monday afternoon.

CANTON

(Continued from First Page)

den and Supervisor of Communications Lawrence Norton. Attaches of other countries are expected to follow. Press dispatches reported that Gen. Hsueh Yueh, governor of Canton's Kwangtung province, and other officials of the provincial government had arrived at Hainan Island.

There was no mention of Gen. Yu Han-Mou, Nationalist military commander of Kwangtung, rumored to have gone over to the conquering Reds.

(Chinese telegraphic advices in Hong Kong said more than 20,000 Communist troops have entered Canton. Advance units walked in Saturday. The Nationalists fled.

(Life went on almost unchanged. Buses were running. Shops were open. All newspapers, excepting the Kuomintang (Nationalist party) Central Daily News, were publishing. But commodity prices rose. Rice was selling at 70 dollars Hong Kong per 133 pounds. A week ago it was 40.

(The Communist news agency said a lone Nationalist plane strafed Canton yesterday, killing and wounding an undetermined number of civilians.) The swift Red advance and capture of Canton lessened in the public mind the prospects that Chungking can hold out if the Reds invade Szechwan province.

The easy Communist conquest of northwest China—where Moslem General Ma Hung-Kwei had been expected to put up a hard fight—enables the Reds to divert as many men as needed for the Szechwan job.

The Nationalists now control five provinces: Szechwan, Chongqing; Sikang, Kweichow, Kwangsi and Yunnan (Kunming) and bits of a few others—the southern part of Shensi, for example.

The Nationalists have been reduced to three widely separated centers of resistance: Chungking, with some 175,000 troops guarding the approaches; Kweilin, where General Pai's 200,000 troops represent the Nationalists' best force; and Formosa, Chiang Kai-Shek's island fortress, 100 miles off the east coast.

The Nationalist central news agency reported that Senator H. Alexander Smith, Republican, New Jersey, flew to Formosa aboard General MacArthur's personal plane and "exchanged personal views on the far eastern situation" with Generalissimo Chiang.

WEeping

(Continued from First Page)

Catholic sources reported yesterday that Msgr. Svec, Canon of Prague's ancient St. Vitus Cathedral, was among the latest churchmen seized. The reason for his arrest was not known. It was believed, however, it may have been because of opposition to the government-sponsored church control bill.

Even athletes are not immune. Czechoslovakia wrecked its world champion amateur hockey team by firing three leading players on the ground they were "politically unreliable."

TUCKER

(Continued from First Page)

said the officials misappropriated large sums of the \$28,000,000 raised from stockholders, prospective dealers and distributors, and potential customers.

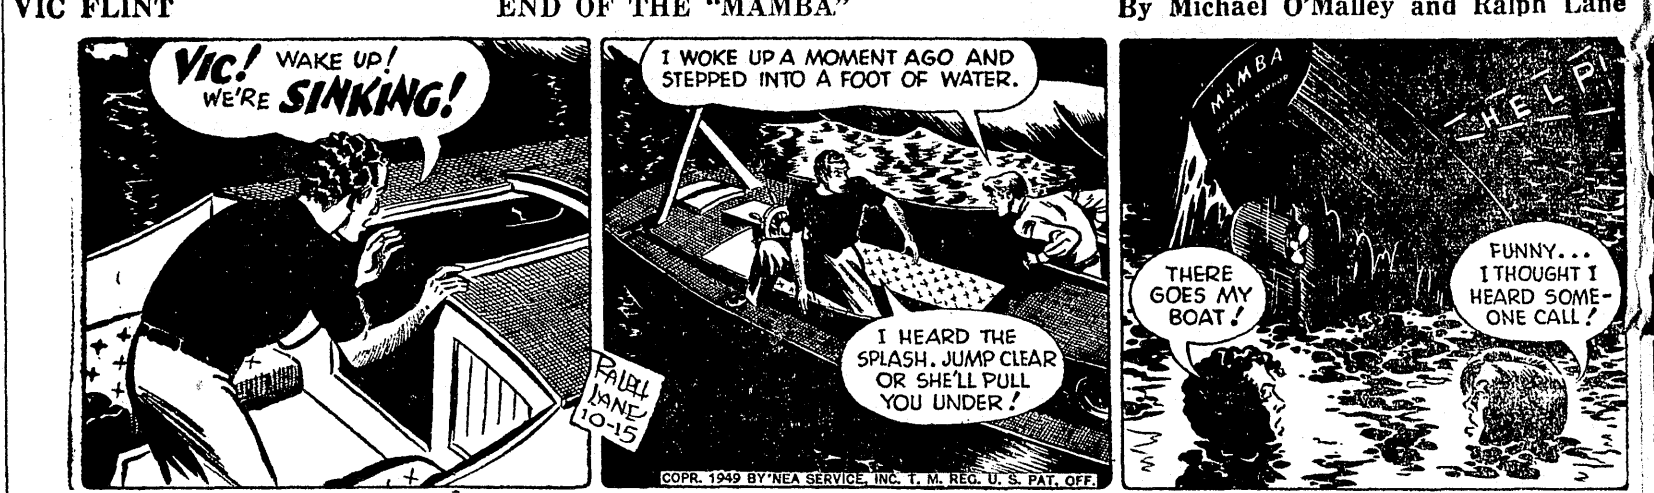

Other defendants are Robert Pierce, former treasurer and director; Floyd D. Cerf, who floated the corporation's stock issue; Fred Rockelman, executive vice-president; Mitchell W. Dulan, former general sales manager; Otis Radford, former director, and Cliff Knoble, former advertising director.

California has 95 institutions of higher learning—36 colleges and universities, 14 professional schools and 45 junior colleges.

GOPHERS LOOK FOR BOWL TRIP

Potential Western Loop Champs After Beating Ohio State 27-0

CHICAGO, Oct. 17.—(AP)—Minnesota would like nothing better than to take the Western Conference championship along with it to the Rose Bowl.

After stunning Ohio State 27-0, the Pasadena trip appears almost a cinch for the undefeated Gophers.

Minnesota now invades Ann Arbor for its traditionally bitter "Little Brown Jug" battle with Michigan. Victory would set up Coach Bernie Bierman's team for its first conference title since the 1941-1942 national championship heyday.

This slant-bang affair, by far the most important of a Saturday card of four Big 10 engagements, should be of special interest to the Pacific Coast. Out there they want their Rose Bowl representative to face nothing but the best from the Big 10—the champion.

Under the three year clause in the two league's bowl contract, Northwestern would set up a Saturday card of four Big 10 engagements, should be of special interest to the Pacific Coast. Out there they want their Rose Bowl representative to face nothing but the best from the Big 10—the champion.

They probably will get what they want if Minnesota defeats Michigan. But the Gophers still will face a tough stretch drive. They meet three conference opponents—Purdue, Iowa and Wisconsin—at home in Minneapolis and tangle with the revived Panthers at Pittsburgh in an inter-sectional corker.

Although Michigan was upset 21-20 by twice-beaten Northwestern Saturday in opening its conference campaign, all speculation must be cast aside when the Wolverines and Gophers collide. Many a time the favorite on paper has been erased and in the rivalry which started in 1892 and has become one of the hardest fought in the country.

Minnesota has not tumbled Michigan since winning 16-14 in 1942.

GULF COAST LEAGUE TO OPEN IN SPRING

LAKE CHARLES, La., Oct. 17.—(AP)—The Gulf Coast League, a baseball loop of six Louisiana and Texas cities, plans to inaugurate its first season next spring.

Representatives from Lake Charles, Opelousas and Crowley, La., and Galveston, Port Arthur and Orange, Tex., met here yesterday to form the league. They will meet in Lake Charles again next Sunday to deposit territorial protection fees and work on plans for the circuit.

Efforts will be made to add two more cities to the league before the 1950 season opens.

JOHNNY PARSONS

LANGHORNE, Pa., Oct. 17.—(AP)—Winning national big car racing championships has become a habit with Johnny Parsons. The Van Nuys, Calif., driver yesterday won his fifth national championship in capturing the 100-mile event at the One-Of-A-Kind Speedway before a crowd of more than 18,000. His time was 64:56.22.

Kentucky, L. S. U. Hold Loop Hopes After Tulane Defeat

Highly Touted Greenies Drubbed 46-7 By Notre Dame

By Sterling Slappey
(Associated Press Sports Writer)

If the Southeastern Conference—an anemic youngster with a visible limp—intends going on the mend this football season, it will be with the doctoring of a healthy Kentucky and an occasionally potent L. S. U.

What potions unbenet, untied Kentucky will administer to Southern Methodist and what L. S. U. can do against North Carolina Saturday will decide finally if the Southeastern is even half as good as it used to be.

The season will be half over this week but so far there haven't been a third enough victories by deep south teams over outside competition.

Last week brought the worse case of defeatism for Dixie in many a sick spell. Tulane, once considered the soundest football machine since the war, took a debunking 46-7 whipping from Notre Dame.

Upcoming Saturday against Tulane is Auburn, one Southeastern team which is alive and kicking despite repeated licks. Auburn turned the hairs of Georgia Tech a faded grey with a 21-point comeback which would be perfect for a movie script if Auburn had won.

But Tech had 53 points and even Auburn with Travis Tidwell, couldn't catch up with that. However, that Auburn spirit likely will catch somebody this year, and Tulane had best be on the lookout Saturday in New Orleans.

L. S. U. contributor of the Southeastern's two major wins over foreign teams, hunts No. 3 against North Carolina in Baton Rouge. Last Friday L. S. U. was adequate to stall Georgia Tech for one touchdown. Offensively though, L. S. U. had practically nothing to offer. Georgia won 7-0 in pure defensive game.

The Kentucky-S.M.U. meeting in Dallas, Texas, would be as good as any, anywhere, had Southern Methodist won from Rice last week instead of losing 41-27. But Kentucky's game ranks high regardless and for the Southeastern, a win can help a lot.

Kentucky trained for S.M.U. by defeating the Citadel 44-0.

Two other hard blows to southern football prestige were taken by the two Mississippi. A 25-25 tie was the best Mississippi could get under dog Boston College while a surprising 19-0 whipping was Mississippi State's fate against little Cincinnati. Both the Mississippians were supposed to win without too much bother.

Ole Miss plays T.C.U. in Fort Worth Saturday night and a big victory is needed before alumni can forget the university's worst season in three years.

Mississippi State returns to conference play against Alabama in Tuscaloosa Saturday.

The first out-of-league game of the season for Vanderbilt will be against Arkansas in Nashville. Vandy has won three straight after dropping the season's first game to Tech. Last week's victim was Florida, and like the rest.

ASSAULT WEAPON — Army's Frank Fischl skirted left end from five yards out for first touchdown in 21-7 shattering of Michigan's 25-game winning streak. The Allen-Town, Pa., second classman runs from the right halfback slot, is a left-handed passer.

Vandy had to play hard and good to win 22-17.

The two Georgia teams will be in Florida. Tech plays Florida in Gainesville and the Georgia Bulldogs go to Miami for a game Friday night.

Tennessee's best and last chance to try sophomore will be in Knoxville Saturday against Tennessee Poly. After T. P. L. the Vols' schedule is solid with good games.

Tennessee's latest outing was a 7-all tie with Alabama which was another defensive battle. Fifteen fumbles didn't improve the patrons' dispositions.

SPORTS ROUNDUP

By Hugh S. Fullerton

NEW YORK, Oct. 17.—(AP)—Lou Little, a recent convert to two-platoon football, maintains: "I had it to do over again, in the light of experience, I never would play Lou Kusserow on defense. As good a runner as he is ought to be as fresh and as near his best as possible when he gets to carry the ball."

That's one cogent argument, but even Little admits that in such a case it's always his club that's a guy like Kusserow will intercept a pass and run, even farther than he would on an offensive play. . . . Casey Stengel advances the theory that Pacific coast baseball players coming up to the majors fail to show their best because they can't stand the midsummer heat in eastern cities. . . . Don Gehrmann, Wisconsin track captain, recently was awarded a share in a scholarship which goes to "an athlete of good moral character, of good standing as a scholar and who shows ability as a leader."

Quote, Unquote

Richard "Smorgasbord" Smith (of the baseball Cubs and football Giants): "I work with Frank Fitch. Charley Grimm and Phil Wrigley in summer and Steve Owen and Jack Mara in the fall. With guys like that, I ought to be paying them instead of them paying me."

Monday Matinee

Bill DeWitt of the Browns has been making inquiries about locating a pro football franchise. Some where in Texas. He says a friend wants to take the field. . . . Lew Andrews is celebrating his 25th year at Syracuse University, his 25th season as basketball coach and his 25th wedding anniversary this winter. . . . Only two of the players who started the 1948-49 hockey season with the Rangers still are in the club. . . . And for a team that has finished last with painful regularity of late, the Rangers did right well in putting five men on the National League All-Star squad. . . . The Cardinals hope to have their fancy new ball park (capacity 45,000) ready for the 1951 season. They'll start building it in February, and if they're smart, they'll start building a pennant-winning ball club even sooner.

Nutter Quote

Floyd (Ben) Schwartzwalder, Syracuse U. football coach: "If it takes three consecutive good, freshman teams to build up a strong varsity team, I'm just getting things set up for my successor. I have a three-year contract."

End Of The Line

Look for Georgetown U. to come up with a whole of a track team in a couple of years. The freshman class is reported to include eleven boys on track scholarships, including Berjale Loefer, the Laconia, N. H., weight lifter, and J. Miller, Clark Joyce, at Seton Hall last year, also has switched to Georgetown.

Football Stars

Al Dugoff, George Washington U. fullback—scored one for a kickoff from behind own goal, as team defeated Virginia Tech, 24-14.

Billy Boren, Utah—ran kickoff back 100 yards for touchdown, scored another from scrimmage with 80-yard run, but Utah lost to Denver, 20-16.

Larry Couture, Notre Dame—helped Irish rout Tulane, 46-7, by scoring first three touchdowns in 10 minutes.

Lynn Chandross, Michigan State—scored three touchdowns and set up two others by pass interceptions as team beat William & Mary, 42-13.

Tobin Rote, Rice quarterback—completed 10 passes for 162 yards and three touchdowns, scored TD himself in 41-27 defeat of Southern Methodist.

Paul Campbell, Texas quarterback—connected on 14 passes for 257 yards and two TD's in Texas' 27-14 victory over Arkansas.

Dick Gabriel, Lehigh University—helped team to 35-20 win over Gettysburg College with a 95-yard kickoff return and a 60-yard punt runback for two touchdowns.

Gil Stephenson, Army fullback—scored four touchdowns as Army defeated Harvard 54-14.

Bernie Custis, Syracuse quarterback—completed 10 of 16 passes for total of 135 yards and carried the ball well in defeat of Rutgers, 21-6.

Frank Brunk, California—just off injured list, he made a 102-yard touchdown run for winning market over Southern California, which bowed 16-10.

Charley Justice, North Carolina—scored three touchdowns in 28-14 victory over Wake Forest.

George Thomas, Oklahoma—clicked for four touchdowns in helping to beat Kansas, 48-26.

Woodley Lewis, Oregon—unfurled a 102-yard kickoff return as Oregon defeated Colorado, 42-14.

WOLF PLEASED WITH 2-PLATOON SYSTEM

GAINESVILLE, Fla., Oct. 17.—(AP)—The two-platoon system is here to stay.

Florida Coach Ray Wolf was so pleased with the way it worked out in Saturday night's near miss with Vanderbilt, he will use separate offensive and defensive units against Georgia Tech this week.

Vanderbilt managed to get a 22-17 decision in the game at Jacksonville. Herb Rich, a Florida boy from Miami Beach, sparked the drive that put over Vandy's winning touchdown with less than eight minutes to play.

CASEY STENGEL TO GET BIG RECEPTION

GLENDAL, Calif., Oct. 17.—(AP)—Glendale will stage a rib-roarin' welcome-home celebration today for a local boy who made good in the big city in a big way—Casey Stengel.

The welcoming delegation will be on hand at nearby Pasadena where the manager of the world champion New York Yankees arrives by train. A caravan will then proceed to the official reception at Glendale City hall. A parade downtown will follow.

Notre Dame, Army Elevens Tower Above Other Squads

Two Powerized Teams Expected To Go Through Season Unbeaten

By Will Grimley

NEW YORK, Oct. 17.—(AP)—Notre Dame and Army, two longtime rivals who decided to quit feuding with each other, towered like a pair of colossi over the college football world today with no immediate downfall in sight.

Since they don't collide, who is to stop these new, powerized editions of fighting Irish and black knights of the Hudson being compared with some of the greatest machines of the past?

Notre Dame has the tougher schedule but it should cause little trouble to the team that manhandled highly-rated Tulane Saturday at South Bend, 46-7.

In breaking the backs and hearts of the Dixie powerhouses, the fourth-ranked elevens in the country, Frank Leahy's athletes ran to their string of defeatless games.

The Irish rest this week before tackling Navy October 29 in Baltimore. Then come Michigan State, North Carolina, Iowa, Southern Cal and Southern Methodist in an awe-some row.

Army, meanwhile, hurdled the "hump" of its schedule a week ago when it smashed Michigan, the defending national champion, 21-7. The Cadets won their fourth of the campaign Saturday by blasting Harvard, 54-14.

Both the Irish and Cadets rolled up astronomical scores as if jealously defending their No. 1 and No. 2 positions, respectively, in the national standings, rated weekly by the Associated Press poll.

The Cadets, who now have only Penn and Navy as serious threats to an unbeaten skein of 15 games.

With the Irish and Cadets riding the top again, there is bound to be strong outside pressure for an early renewal of their annual game.

While Notre Dame and Army were improving their national stature, the sectional pictures were getting into sharp focus with the list of unbeaten, untied major teams reduced to 13.

These emerged after the first month as the top teams in their sections: East—Army, Cornell.

Midwest—Notre Dame, Minnesota. South—Ole Miss, Baylor, Rice. South-North Carolina, Kentucky. Far West—California.

Minnesota's Gophers established themselves as the likely guest team in the Rose Bowl by routing Ohio State, 27-0, for their fourth straight triumph.

Their big test will come Saturday when they play Michigan in Ann Arbor. The Wolverines are smoldering under two straight setbacks that fractured a 25-game winning streak.

Michigan was one of the victims of "Black Saturday" that saw Southern Methodist, U. C. L. A. and Villanova rocked from the unbeaten ranks in sterling upsets and resurgent Navy battered down by Wisconsin.

The Wolverines bowed to Northwestern's twice-beaten Rose Bowl champions, 21-20. The defeat, following on the heels of the Army debacle, may knock them clear out of the first ten.

Rice, with Tobin Rote throwing three touchdowns—passes and scoring another, shattered Southern Methodist's winning bid, 41-27. Santa Clara stunned U. C. L. A. 14-0. Tulsa squeezed out a 21-19 victory over a Villanova team that had won four straight.

The California Bears nailed a strong bid to the Rose Bowl by whipping Southern California, 16-10. The Bears' Washington this week and then tackle U. C. L. A. October 29 in the game that should tell.

Compell, not on Army's schedule, emerged as one of the powers of the east by subduing Yale, 48-14.

Oklahoma, rated the third best team in the country, kept its escutcheon clean by rolling over Kansas, 48-26. Baylor is unbeaten in the Southwest conference, beating Texas Tech Saturday, 28-7. Rice has lost only to Louisiana State.

North Carolina, paced by Charley Justice, and Kentucky took over the front spot in the south after Tulane crumbled before Notre Dame, North Carolina won over Wake Forest, 28-14. Kentucky racked up its fifth in a row, beating the Citadel, 44-0.

Duane Millette made his first major league start for the Yankees in Detroit's Briggs Stadium, where his father, Herman, was pitching when Duane was born in 1923.

This Week At Gus Kallio's Arena

Tuesday night—Wrestling Tag Team match. Gus Kallio and Harry V. Charley Laye and Wild Bill Steadum. Roller Skating Every night, except Tuesday.

SPORTS MIRROR

(By Associated Press)

Today a year ago—Bert Hogan shot a record 13 under par 275 to win the 72 hole \$15,000 Glendale, Calif., open golf tournament. Lloyd Mangrum finished second with 277.

Three years ago—Boston Red Sox Owner Tom Yawkey gave each of his 1946 American League champions a bonus check for "services rendered."

Five years ago—Pepper Martin, star of the 1931 World Series, was given his unconditional release by the St. Louis Cardinals.

Ten years ago—Pitcher Bucky Walters of the National League champion Cincinnati Reds, was voted the National League's most valuable player for 1939.

HARRIS TO DECIDE ON MANAGERSHIP

WASHINGTON, Oct. 17.—(AP)—Bucky Harris will tell Clark Griffith this week whether he wants to manage the Washington Senators baseball team.

Griffith, who holds controlling interest in the American League team, has talked to Harris about the situation.

Joe Kuhel has been let out as the Washington manager. His team wound up in the cellar this year. 47 games behind the champion Yankees.

Harris was not available for comment but Bill Starr, owner of the San Diego club which Harris now manages, said "Bucky has promised to let me know by the end of this week whether or not he will manage Washington."

T. C. U. SEES HARD OLE MISS CONTEST

FORT WORTH, Tex., Oct. 17.—(AP)—"We fully expect the Rebels of Ole Miss to give us one of the most rugged contests of our season," said Coach Dutch Meyer of Texas Christian today. He started preparing for the game which will be played in Fort Worth Saturday night.

Mississippi is coached by Johnny Vaught, an American guard at T. C. U. in 1932.

Clarence Marable, 220-pound senior right tackle who has played more minutes than any other T. C. U. lineman this season, will miss the game. He suffered a severe knee injury Saturday as the Frogs defeated Texas A. & M., 28-6, is now on crutches and may not play again.

JEZZARD CHARLES IS MONEY-HUNGRY

SALT LAKE CITY, Oct. 17.—(AP)—Ezzard Charles is a money hungry champion with few if any challengers colorful enough to draw a profitable game. So the N. B. A. heavyweight boxing king opens a busy exhibition schedule here tonight.

Charles still hopes for a title defense before Christmas. But with the prospects none too bright, he has a tentative schedule of some 25 exhibitions before year-end. He opens against Rex Layne of Lewiston, Utah, here tonight. Three more exhibitions this week are on tap: At Los Angeles Tuesday, Sacramento, Calif., Thursday and San Diego Friday.

FORTIER HIGH WINS OVER ST. ALOYSIUS

NEW ORLEANS, Oct. 17.—(AP)—The football Tarpons of Fortier High School defeated the St. Aloysius Crusaders 34 to 6 here yesterday.

Roy Ward and Ivy Hoover, Tarpon backs, paced the scoring, with two touchdowns each. Back Elmer Epling tallied the fifth Fortier six pointer.

John Ridgley caught an aerial from Jim Christensen to score the only St. Aloysius touchdown.

SWEETHEARTS OF SPORTS MARRIED

OAKLAND, Calif., Oct. 17.—(AP)—The sweethearts of sports were married yesterday.

Diving Champion Zoe Ann Olsen, pretty and 18, and big, blond Jackie Jensen, 28, former football star for the University of California and now a baseball bonus player, were wed in Oakland's First Presbyterian Church.

Some 1,000 guests and spectators overflowed the small church, which was brightly lighted for newsreel and television cameras. Jensen's former football teammates were ushers. His coach—benign, Lynn (Pappy) Waldorf—was among sports celebrities in attendance.

Zoe Ann, formerly of La Porte City, Iowa, is the national women's A. A. U. diving champion. She has won 14 national diving honors. Jackie, a \$75,000 bonus player for Oakland in the Pacific Coast baseball league, was sold last week to the New York Yankees.

They met in 1944 at the Athens Athletic Club swimming pool, where Jensen was a lifeguard. After a honeymoon—destination undisclosed—the couple plans to reside in Oakland.

JOHN H. WHITE IS MOTH BOAT CHAMP

ELIZABETH CITY, N. C., Oct. 17.—(AP)—John H. White of the Rocky Point Moth Club, old Greenwich, Conn., is the new International Moth Boat Sailing champion.

Moths are 11-foot boats. White won the open championship here yesterday by placing second in the final heat for a three-day total of 123 points.

Want Better Shaves for Less MONEY?

BYRNES MAY RUN AS STATES RIGHTER

SPARTANBURG, S. C., Oct. 17.—(P)—Former Secretary of State James F. Byrnes says he may run for governor of South Carolina on the principle of states' rights.

But his statement yesterday did not refer to the states' rights platform on which Gov. J. Strom Thurmond of South Carolina ran for the presidency last year.

Breaking silence on his political plans for the first time since he resigned from the cabinet two years ago, Byrnes told the Spartanburg Herald in an interview at his home here:

"A very important question is whether one as governor could secure the cooperation of other governors in arousing the people of the nation to hold the line against further encroachments upon the rights of states."

Byrnes has recently been critical of what he called a trend in federal government toward a welfare state. He will address the southern governors conference at Biloxi, Miss., on Nov. 21.

Thurmond's term as governor expires in January, 1951.

Irritated Eyelids?

Bathe them with Lovoplak. Promptly soothes. Also relieves inflamed, sore, burning, itching eyes and swollen, tired eyelids. Money refunded, 30 days success. Priced by included. Get Lovoplak today. (Eye-cup included). At all drug stores.

YUGOSLAVIA TO GET U. S. LOAN

WASHINGTON, Oct. 17.—(P)—The world bank announced today it is lending a total of \$5,000,000 to Yugoslavia and to Finland.

Yugoslavia will get \$2,700,000 and Finland \$2,300,000. The loans are to increase output of timber for western European countries.

These loans by the world bank, in which the United States is a heavy investor, follow steps by this government to bolster Yugoslavia's Marshal Tito in his defiance of Russia.

The U. S. government recently loaned some \$20,000,000 to Yugoslavia and authorizing the export of equipment for a \$3,000,000 steel mill to be constructed by Tito.

Reports have reached the state department that Soviet satellite nations, with Russian backing, are planning a guerrilla campaign against Yugoslavia like the Communist war on Greece.

However, officials said today these reports are unsupported by firm evidence. They added that circulation of the rumors might be part of the Soviet war of nerves against Tito's regime.

WORLD MARKETS

NEW YORK STOCKS

NEW YORK, Oct. 17.—(P)—Continued selling pressure depressed the stock market today by fractions to more than 2 points.

There was only one brief attempt early in the session to get ahead, and from that time on prices took a one-way path downward.

Falling practices brought out more and more offers to sell. That reaction is the reverse of the tendency noted last week when volume tended to increase as prices fell.

At one time the radio-television stock was hit by selling that carried stocks down by fractions to more than a point. After the flurry died down prices remained depressed. There was a lot of profit taking apparent in the group because of the recent advance which was particularly evident in the short session Saturday.

MARINE CORPS WILL INSTALL

Induction Exercises Set
For Hotel Virginia
Wednesday Night

Officers of the Northeast Louisiana Detachment of the Marine Corps League for the coming year will be installed at a dinner Wednesday night in the Cameo room of Hotel Virginia.

At that time, Douglas Page will succeed W. P. Renwick as commandant. The dinner is scheduled for 8 o'clock.

Appointive officers have been named by the commandant-elect. They are James A. Brownlee, adjutant and paymaster; George Hancock, liaison officer; and Harold Breard, public relations officer.

These officers will be installed along with the new commandant and other elective officers: N. F. Fetzette, Bass-trop, vice-commandant; H. B. McCendon, judge advocate; M. A. Newburn, sergeant at arms; and Robert Keller, chaplain.

The installation will be conducted by George Tidwell, former commandant of the detachment and immediate state commandant of the Marine Corps League.

The dinner will be a family affair. Members may bring their wives or relatives. However, reservations must be made not later than Tuesday with George Tidwell at his service station on Jackson street.

Movies will be shown after the dinner.

Full-grown minnows usually reach a length of three to four inches.

Acts AT ONCE to Relieve

**BRONCHIAL
COUGHING**

(CAUSED BY COLDS)

Prescribed By Thousands of Doctors!

Pertussin must be good when thousands of Doctors prescribed it for years. PERTUSSIN acts at once to relieve such coughing. It actually "loosens up" phlegm and makes it easier to raise. Safe, Effective, Pleasant.

PERTUSSIN

EDUCATOR

F. L. McALLISTER

COMMUNITY MUSIC WORKSHOP OPENED

The heralded community music workshop opened early Monday with Forest McAllister, nationally known music educator, conferring with the Ouachita High School band and choral groups.

McAllister, director of research and community service of the American Music Conference, arrived in Monroe late last night. He lunched with the Junior Chamber of Commerce in the Virginia Hotel Monday, then turned to the choral club for its rehearsal period at the First Baptist Church.

Tuesday McAllister will lunch with the Lions Club, then meet with the music department classes at Northeast Junior College.

McAllister's program is part of a two-day conference under the auspices of the state department of education. His aim: to spread interest and participation in music in all communities. Six major cities in Louisiana

will be benefited by McAllister's efforts.

Local problems to be solved, or scratched, by McAllister while meeting with local music organization leaders and members may be boiled down to two:

First, an overall plan of concerts, festivals, etc., to prevent overlapping.

Second, a comprehensive system of wide musical education of all youngsters.

This liquid preparation kills in 30 minutes those itchy mites with which it comes in contact. Buy SITICIDE from your druggist, or send 60c to Sitticide Co., Commerce, Ga. (Adv.)

GIRL ORCHESTRA TO PLAY AT TECH

Phil Spitalny And 'Hour Of
Charm' Expected To
Draw Big House

RUSTON, La., Oct. 17.—(Special)—Scheduled for performances at 2:15 p. m. and 8 p. m., Phil Spitalny and his "Hour of Charm" all-girl orchestra, with Evelyn and her "magic violin," will be presented at Louisiana Tech Concert Association.

Because of the near-sellout of full season membership tickets, L. V. E. Irvine, chairman of the association, announced that box office sales will be limited to approximately 100 tickets for the single performances.

With capacity crowds expected at each event, Mr. Irvine said that the box office will not open for ticket sales until 2 p. m. for the matinee performances and at 7:45 p. m. for the evening performances.

In announcing the conclusion "of one of the most successful season membership campaigns in the history of the concert association," he said that the total includes 1,873 persons, of whom 792 reside in 36 cities and towns outside Ruston. The membership for the current season also represents residents of an area which includes 13 north Louisiana parishes and south Arkansas.

Monroe police arrested Louis Cole, 47, Negro, of 301 South Ninth street late Saturday for operating a gambling game. The Negro was released from the city jail under \$500 property bond and will be tried in city court.

McAllister's program is part of a two-day conference under the auspices of the state department of education. His aim: to spread interest and participation in music in all communities. Six major cities in Louisiana

will be benefited by McAllister's efforts.

Local problems to be solved, or scratched, by McAllister while meeting with local music organization leaders and members may be boiled down to two:

First, an overall plan of concerts, festivals, etc., to prevent overlapping.
